

COCOON 1100

CORDLESS PHONE

USER GUIDE
V2.3 - 12/08

Thank you for purchasing this new digital cordless telephone.

Intended Purpose

This product is intent to be connected either to a analogue telephone line. You have acquired a Cocoon 1100, which is a product made in accordance with the Digital Enhanced Cordless Telecommunications (DECT). DECT technology is characterized by high-security protection against interceptions as well as high-quality digital transmission. This telephone was designed for a wide range of applications. For example, this telephone can be used either in a network of base units and handsets, constituting a telephone system, or:

- Operates up to 5 handsets on one base unit.
- Allows an extension between 2 handsets.
- Allows the operation of a handset at up to 4 base units.

Caller ID is a network provider service. After subscribing to Caller ID, this phone will display the caller's phone number.

Important

To use Caller ID (display callers), this service has to be activated on your phone line. Normally you need a separate subscription from your telephone company to activate this feature. If you don't have the Caller ID function on your phone line, the incoming telephone numbers will NOT be shown on the display of your telephone.

The CE symbol indicates that the unit complies with the essential requirements of the R&TTE directive.

The features described in the manual are published with reservation to modifications.

This product works with rechargeable batteries only. If you put non-rechargeable batteries in the handset and place it on the base, the handset will be damaged and this is NOT covered under the warranty conditions.

Manual Topcom Cocoon 1100
