Macros Explained

One of the powerful features of inVoca is its ability to utilize "macros." A macro is simply a sequence of commands triggered by a single button push or spoken word. A simple macro might be "V" followed by "T" followed by "Show" (for turning your TV reduced to a macro to a single command such as "TV" or "Mute").

A more complex macro would allow you to play a VCR tape. To do this the old-fashioned way you would need to press "TV" then "Power" then "V" then "I" then "VCR" then "power" then "play." A macro would allow you to do all this with a single spoken command such as "play tape." Isn't that easier? "Multiple-Single Macros," explained on page 24, permit you to do such things as set/advance down or four channels with a single command — very handy for watching New Year's Day football!
