Shock Waves Zonglin Jiang, 2010-05-30 The 24th International Symposium on Shock Waves ISSW24 was held at the Beijing Friendship Hotel during July 11-16, 2004 in Beijing. It was a great pleasure for the Local Organizing Committee to organize the ISSW in China for the first time because forty-seven years have passed since the First Shock Tube Symposium was held in 1957 at Albuquerque. The ISSW24 had to be postponed for one year because of the SARS outbreak in Beijing shortly before the Symposium was scheduled to be held in 2003 but it has achieved success due to the continuous support and kind understanding from all the delegates. It is very heart-warming to have had such an experience and I am very happy to have served as chairman for the Symposium. I would like to thank all for the contributions and help that they have given us over the past three years without which we would not have had the Symposium. A total of 460 abstracts were submitted to the ISSW24. Each of the abstracts was evaluated by three members of the Scientific Review Committee and the decision on acceptance was made based on the reviewers' reports. 195 oral papers including 9 plenary lectures were accepted to be presented in three parallel sessions and 135 poster papers in three dedicated poster sessions. Topics discussed in these papers cover all aspects of shock wave research.

**The Doctor Who Error Finder** R.H. Langley, 2024-10-14 In its long television run the low budget but beloved science fiction serial *Dr Who* featured numerous bloopers that producers could not afford to reshoot. Today spotting and discussing those bloopers has become a favorite pastime for fans seeking answers to penetrating questions: When was the First Doctor on a slight exploitation? What does the Second Doctor call the sectional supply unit? When does the Third Doctor mistake a silicate rod for a silicon rod? What is hanging from the Fourth Doctor's nose when he is in a cell on Traken? How does the Fifth Doctor accomplish his disappearing hat trick? Where does the Sixth Doctor believe Peri's heart and liver are located? What does the Seventh Doctor do when Ray asks what he is doing? Why does the Eighth Doctor not know the difference between Twelve and Thirteen? This work is the largest existing collection of errors appearing in *Doctor Who* from every episode of the original television series, the movies, and the spin-offs. Presenting over 4000 errors and about 1500 other items of interest to fans, it includes transmitted bloopers such as microphones or equipment visible in a shot, obvious strings, anachronisms, unsteady sets, and actors having trouble walking. This book not only presents previously unrecorded bloopers but also corrects errors in others' lists and even refutes well-established blooper claims. The work guides the reader through the stories of each Doctor, first to eighth. Information on each story begins with the official BBC code and title, alternate titles, writers, and directors. Media examined in creating this list, running times, highlights, questions to keep in mind, and then information on the individual episodes. For each episode the work provides

information on the date of first transmission and a list of errors and trivia each with its approximate time within the episode. The book also lists errors from the untransmitted parts of the pilot episode and Shada and concludes with the Forgotten Doctor and related programs such as K 9 and Company Dimensions in Time and The Curse of the Fatal Death. **Manual on Rock Blasting** K. H. Fraenkel, 1957 **Explosives Act, 1875. Annual Report of His Majesty's Inspectors of Explosives** Great Britain.
