International Maritime Boundaries Coalter Lathrop, 2025-03-24 Prepared by regional experts Volume IX provides critical commentary on international maritime boundary agreements concluded since the previous volume The International Maritime Boundaries series is the foremost authority on maritime boundaries and is used and referenced widely by practitioners and scholars of international law International Maritime Boundaries is also available online The Boundaries of Belonging Bernadette Nadya Jaworsky, 2016-12-09 This book addresses an issue currently making political headlines in the United States immigration Immigrants have long engendered debates about the boundaries of belonging with some singing their praises and others warning of their dangers In particular the 11 million unauthorized immigrants in the country provoke heated disagreements with issues of legality and morality at the forefront Increasingly such debates take place online by organizations in the immigrant rights and the immigration control movements who engage in symbolic work that includes blurring crossing maintaining solidifying and shifting the boundaries of belonging Based on data collected from 29 national level groups this book features a cultural sociological analysis of the online materials deployed by social movement organizations debating immigration in the United States *Flow and Transformations in Porous Media* Renaud Toussaint, Bjørnar Sandnes, Daniel Koehn, Piotr Szymczak, Einat Aharonov, 2017-02-07 Fluid flow in transforming porous rocks fracture networks and granular media is a very active interdisciplinary research subject in Physics Earth Sciences and Engineering Examples of natural and engineered processes include hydrocarbon recovery carbon dioxide geo sequestration soil drying and wetting pollution remediation soil liquefaction landslides dynamics of wet or dry granular media dynamics of faulting or friction volcanic eruptions gas venting in sediments karst development and speleogenesis ore deposit development and radioactive waste disposal Hydrodynamic flow instabilities and pore scale disorder typically result in complex flow patterning In transforming media additional mechanisms come into play compaction de compaction erosion segregation and fracturing lead to changes in permeability over time Dissolution precipitation and chemical reactions between solutes and solids may gradually alter the composition and structure of the solid matrix either creating or destroying permeable paths for fluid flow A complex dynamic feedback thus arises where on the one hand the fluid flow affects the characteristics of the porous medium and on the other hand the changing medium influences the fluid flow This Research Topic Ebook presents current research illustrating the depth and breadth of ongoing work in the field of flow and transformation in porous media through 15 papers by 72 authors from around the world The body of work highlights the challenges posed by the vast range of length and time scales over which subsurface flow processes occur Importantly phenomena from each scale contribute to the larger scale behavior The flow of oil and gas in reservoirs and the flow of groundwater on catchment scale is sensitively linked to pore scale processes and material heterogeneity down to the micrometer scale The geological features of the same reservoirs and catchments evolved over millions of years sometimes as

a consequence of cracking and fracture growth occurring on the time scale of microseconds The research presented by the authors of this Research Topic represents a step toward bridging the separation of scales as well as the separation of scientific disciplines so that a more unified picture of flow and transformation in porous media can start to emerge

Modern England Samantha Dressel,Matthew Carter,2023-08-25 This book explores the possibilities and limitations of violence on the Early Modern stage and in the Early Modern world This collection is divided into three sections History cal Violence Un Comic Violence and Revenge Violence This division allows scholars to easily find intertextual materials comic violence may function similarly across multiple comedies but is vastly different from most tragic violence While the source texts move beyond Shakespeare this book follows the classic division of Shakespeare s plays into history comedy and tragedy Each section of the book contains one chapter engaging with modern dramatic practice along with several that take textual or historical approaches This wide ranging approach means that the book will be appropriate both for specialists in Early Modern violence who are looking across multiple perspectives and for students or scholars researching texts or approaches

Global University Rankings and the Mediatization of Higher Education Michelle Stack,2016-04-12 Higher Education Institutions simultaneously critique and participate in national and international rankings of universities However this creates a difficult situation since if universities do participate in rankings they acquiesce to a system based in media logics that has little to do with academic norms of research If they do not participate in the rankings they risk losing public funding students and donors in an increasingly competitive and globalized environment This book delves into the influence of journalists business tycoons and multinational corporations in defining what world class is and how it will be measured Rankings provide us with a rich study for understanding how universities define deploy and manage their assets and liabilities in a mediatized globalized economy **Fluid Modernity** Gilberto Conde,2022-10-31 Fluid Modernity offers an innovative encompassing historical grasp of the politics of water in the Middle East in the context of modern capitalism and world politics Drawing upon conceptions of power by Foucault and Agamben it examines how water through its modern capitalist production is transformed into a water apparatus that binds people to power In trans boundary watercourses states

get involved in the formation of international governmentalities The book revisits the history of fluid modernity in the Middle East from late Ottoman times to the present It focuses on water conflict and cooperation between states Israel and Arab states and Turkey Syria and Iraq on state policies towards subaltern subjects Israel and Turkey in relation to Palestinians and Kurds respectively and on the water politics of rebellious movements After a conceptual chapter discussing fluid modernity the book traces water politics in the region in a diachronic perspective It explores how water diplomacy infrastructure loans reservoir construction discourses of sovereignty and conflict have weighed on the development of governance and governmentality in the region Fluid Modernity will be of great interest to postgraduates researchers academics and intellectuals interested in Middle East Studies Hydropolitics Water and Society Geopolitics Political Theory Resistance as well as to NGOs dealing with water

Board strategy and performance management at Swiss medium sized companies. A proposal for a stakeholder driven approach Mike Portworsnick, 2016-10-05 Master s Thesis from the year 2016 in the subject Business economics Business Management Corporate Governance grade Merit University of Derby language English abstract The central

question addressed is how do boards plan and align their activities to fulfil stakeholder requirements To answer this question the research investigated extant literature and conducted an interview based study to assess how boards of directors plan their board strategy and conduct performance management incorporating stakeholder requirements The study was motivated by the need for improvement in boards that is by the need to improve both the way they plan a board strategy and the way they conduct an effective performance management that is closely linked to the satisfaction of stakeholder requirements The purpose of this study was to assess how this is done today to understand why it is done this way and to propose how it can be done better in future This is a qualitative study based on the grounded theory methodology Interviews were conducted with participants who chair a total of 36 boards and hold 65 seats as ordinary board members at Swiss medium sized companies in several sectors The interviews were analysed to understand which methodology would be appropriate to plan a board strategy and to conduct board performance management The analysis also revealed the phenomenon why chairmen usually do not plan a board strategy even though they admitted that such a strategy might be useful Further a grounded theory was able to be developed The main claims based on the findings of this study are a The strategy map and BSC are indeed appropriate to plan a board strategy and to conduct board performance management and b In this study a grounded theory was developed that explains why chairmen being on top of the company usually do not apply well known methods to formally plan a board strategy The cause of this behaviour seems to be founded in the chairman s willingness to develop themselves or not
