Ks1 2005 English Animal Stories:

Natural History Dioramas - Traditional Exhibits for Current Educational Themes Annette Scheersoi, Sue Dale Tunnicliffe, 2018-11-02 This book focuses on socio cultural issues and the potential of using dioramas in museums to engage various audiences with and in contemporary debates and big issues which society and the natural environment are facing such as biodiversity loss From the early 1900s with the passage of time and changes in cultural norms in societies this genre of exhibits evolved in response to the changes in entertainment expectations and expressed needs of museum visitors The challenge has always been to provide meaningful relevant experiences to visitors and this is still the aim today Dioramas are also increasingly valued as learning tools Contributions in this book specifically focus on their educational potential In practice dioramas are used by a wide range of educational practitioners to assist learners in developing and understanding specific concepts such as climate change evolution or or conservation issues In this learning process dioramas not only contribute to scientific understanding and cultural awareness but also reconnect wide audiences to the natural world and thereby contribute to the well being of societies In the simultaneously published book **Natural History Dioramas Traditional Exhibits for Current Educational Themes Science Educational Aspects** the editors discuss the history of dioramas and their building and science learning aspects as well as current developments and their place in the visitor experience

Reconnection Miles Richardson, 2023-04-25 How did our relationship with nature become broken why does it matter and how can we fix it From a past in which we were embedded in the natural world revolutions in farming science and industry have seen the human bond with nature eroded with the promise of prosperity offering happiness and meaning in life This mindset may have delivered comfortable living for many but there is growing recognition that the root cause of wildlife loss and the warming climate is people s disconnection from nature which is also an important factor in our mental health Yet solutions focus on technical fixes to treat the symptoms of that damaged relationship such as reducing carbon emissions and increasing habitat What we urgently need is a whole new way of thinking **Reconnection** explores our hidden links with nature through the science of nature connectedness setting out a way to revivify the relationship across society Here is a route to a meaningful life that unites both human and nature s wellbeing for a truly sustainable future What s more everybody has a role to play From business leaders to conservationists teachers to medics from drivers to walkers we can all reduce the damage we do and find new ways to bring nature into our lives This timely book considers the problems scientifically then offers simple practical positive steps for how we can all work towards a better world

The Children's Buyer's Guide, 2006 **The British National Bibliography** Arthur James Wells, 2007 **The Times Index**, 2005 Indexes the Times and its supplements *Little Animal Stories*, 1942
