Supporting Early Mathematical Development Caroline McGrath, 2025-10-14 *Supporting Early Mathematical Development* is an essential text combining theory and practice to enable successful mathematical education for children from birth to 12 years. This text considers how students, academics, parents and professionals can develop their mathematical thinking practice whilst acknowledging there will always be a road yet to travel; we will always be practising the craft of teaching mathematics. Charting the delivery of mathematical development in playgroups, children's centres, nurseries and primary schools, the book promotes an effective pedagogy for mathematics. This new edition provides a conceptualisation of mathematics and places a fresh emphasis on mathematical literacy to empower children. New chapters include the following: Mediators of Mathematical Thinking, Understanding Pattern, Pre-Algebraic and Algebraic Thinking, Naming, Renaming and Processing Numbers, Statistics, Statistical Diagrams and Probability Measure, Geometry. Throughout the book, Caroline McGrath navigates the complexity of teaching and learning mathematics through careful thought and consideration of mediators of mathematical thinking. This supportive book is designed for educators who want to know how to reconstruct mathematical ideas with children and respond in the moment. Returning to the root of understanding using the adaptive pedagogical style recommended in this text, you can create satisfying mathematical experiences for children.

Make Key Stage 3 Matter in English Liz Hillier, 2017-04-27 The KS3 curriculum plays a critical part in giving students the best possible start to their secondary education and preventing the need for intervention later on. Featuring examples of curriculum models and audits of current practice, chapters cover key topics such as developing the planning cycle, transitioning between primary and secondary English, assessment in KS3 English, creating a model that supports and challenges students of all levels, LAC and SPAG, divisive or cohesive abbreviations, speaking and listening in the KS3 English curriculum, using multimodal texts, examples of how meaningful homework can successfully embed itself in a KS3 English curriculum model. *Make Key Stage 3 Matter in English* will be an invaluable resource for KS3 English coordinators, teachers and all those involved in the planning and delivery of the KS3 English curriculum.
