PENTON - KTM 1972-1975 JACKPINER 175cc - HARE 250cc - MINT 400cc WORKSHOP MANUAL AND PARTS MANUALS Floyd Clymer, Penton Motorcycles, 2025-05-15 128 pages and more than 150 illustrations and charts size 8 25 x 10 75 inches This manual is a compilation of 3 publications 1 A workshop manual for the Penton 175cc Jackpiner the 250cc Hare Scrambler and the 400cc Mint models 2 An illustrated Frame and Chassis parts manual and 3 An illustrated 175 250 400cc KTM Engine Parts manual This publication is also appropriate for the KTM MC Motocross and GS Gelände Sport machines that utilize these same engines A BRIEF EXPLANATION OF THE ASSOCIATION BETWEEN PENTON AND KTM In 1967 when John Penton approached KTM Austria with a plan to manufacture off road motorcycles to his design it was obviously seen as an opportunity by KTM to gain a foothold in the expanding USA off road motorcycle market Certainly having someone like John Penton representing their product was a major win for KTM as John's prominent status in off road racing was already well established The first of the Penton KTM joint venture motorcycles the Berkshire 100 and Six Day 125 models powered by Sachs engines arrived in the USA in 1968 The use of a Sachs powertrain was an obvious choice for KTM who without any in house engine capability had been using Sachs engines in their moped scooter and road going motorcycles since the early 1950 s While the Sachs powered off road machines established a solid foothold for Penton motorcycles John began to pressure KTM to construct an engine of their own design The first of the Penton models powered by KTM engines debuted in 1972 as the 175cc Jackpiner followed in 1973 by the 250cc Hare and the 400cc Mint in 1974 See Workshop Manual ISBN 9781588502933 for Sachs powered Pentons However KTM was also marketing identical KTM badged bikes as MC Motocross and GS Gelände Sport models on an international level Obviously this did not sit well with John and the situation worsened when those same KTM badged bikes began to show up on the west coast through a different USA importer The 1976 MC 5 and Cross Country and the 1977 GS 6 Pentons were also badged and sold as KTM s and the association between John and KTM continued to deteriorate In the interim KTM had been pressuring John to relinquish control of his distribution rights and in 1978 KTM purchased both the distribution rights and the company infrastructure and

the Penton brand was no more A sad end to an era of great innovation by John Penton however his motorcycles and the identical KTM versions are regarded as some of the best ever to come out of the 1970 s off road motorcycle phenomenon and are highly collectible and still used in vintage events by enthusiasts worldwide Unfortunately owners of these early Penton motorcycles are subjected to considerable confusion surrounding the appropriate selection of the multitude of originals and reprints of the various manuals and parts lists that have recently flooded the marketplace We encourage you to exercise caution when purchasing a manual for your motorcycle or automobile as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that have no idea what they are selling Many are nothing more than poor quality comb bound or ring bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished In addition they are often advertised for the incorrect series and or model years

 Clymer,Velocepress,2009-06-01 A faithful reproduction of the 1970 Floyd Clymer publication of the official factory Suzuki
 Workshop Manual for the T20 and T200 series of motorcycles including the 250cc Super Six and X6 Hustler and the 200cc
 X5 Invader and Sting Ray Scrambler There are comprehensive tables of technical data tolerances and fits and all of the
 expected data from a factory publication for the repair and overhaul of all major and minor mechanical and electrical
 components making it an invaluable resource for collectors and restorers of these classic Suzuki motorcycles There are 177
 illustrations and each procedure is explained in a step by step method using an appropriate illustration The translation from
 Japanese to English is at times a little quirky but the illustrations make up for any difficulty in understanding what needs to
 be done Out of print and unavailable for many years this book is highly sought after on the secondary market and we are
 pleased to be able to offer this reproduction as a service to all Suzuki enthusiasts worldwide **Honda 250 & 350 Twins**

 Wilkins,Jeremy Churchill,1988 CZ 125cc - 250cc - 360cc - 380cc WORKSHOP MANUAL 1967-1974 SINGLE EXHAUST
 Floyd Clymer,2025-05-05 126 pages and profusely illustrated with more than 260 illustrations diagrams and charts size 8 250
 x 10 750 inches Originally published by Floyd Clymer in 1969 with coverage for the 1969 and earlier 4 speed and 5 speed
 250cc and 360cc models While this 2025 edition includes all of the data from the original publication it has also been
 expanded to include data for the 125cc and 380cc engines which extends the coverage through 1974 CZ motorcycles of this
 era were identified by a three digit Type number occasionally followed by a numerical suffix for example Type 984 9 The
 suffix number identifies model variations and or year of manufacture within each Type group Unfortunately the use of the
 Type number is extremely model specific and in order to eliminate any confusion the data included in this manual is
 appropriate for the Single exhaust Pipe 4 speed and 5 speed CZ Motocross Enduro and Ruff Country models However for the
 sake of completeness the manual states that coverage includes the following model Types Type 984 125cc Motocross Type
 968 250cc Motocross Single Pipe Type 980 250cc Motocross Type 988 250cc Enduro Type 969 360cc Motocross Single Pipe
 Type 981 380cc Motocross From 1964 to 1966 the Type 968 and Type 969 were available with Twin Pipe engines they are
 not covered in this manual However as many of the other mechanical components are shared with the Single Pipe machines
 this manual will also be of use to owners of those Twin Pipe models We encourage you to exercise caution when purchasing
 technical publications for your classic motorcycle or automobile as many of the reprints found on internet websites are from

bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling Many are nothing more than poor quality digital comb bound or ring bound photocopies that are scanned or printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished In addition they are often advertised for the incorrect series and or model years However VelocePress com has been publishing reprints of motorcycle and automobile manuals since 2003 and our publications have earned excellent reviews worldwide so you can be assured you are purchasing a quality product
