*Identity and Intercultural Exchange in Travel and Tourism* Anthony David Barker, 2014-10-14 This book looks at the relationship between questions of identity formation and modern practices in travelling and tourism Unprecedented levels of mobility and international exchange over the last 100 years have raised questions about the stability of national and personal identities and new and creative patterns of behaviour and self realisation are now emerging due to the enormous commercial interests that lie behind the modern travel and tourism industries The volume will consider these issues and the challenges they create in various geographical contexts Germany Spain Romania Italy Africa and concludes with a number of case studies from the Portuguese context where the revenues from tourism are integral to its economy and a lifeline in the current economic crisis

**Mobility, Modernity and the Slum** Rodanthi Tzanelli, 2015-08-20 Only virtuous humans are supposed to move in time to meet their happy destiny or karma The tale of Jamal in *Slumdog Millionaire* is such a case of serendipitous mobility towards riches and love a journey in which good heroes and urban communities respecting solidarity are successfully modernised Unsurprisingly the film became tangled in many controversies around India's destiny in the world the film inserted Mumbai into various financial political and artistic scenes increased tourism in its filmed slums and brought about charity projects in which celebrities and tourist businesses were involved *Slumdog Millionaire* served as a global example of a developing country's uneven but unique modernisation This book examines such mobilities of ideas art tourism and activism together In doing so it reveals the significance of Mumbai as a post colonial city in discussions of modernity a form of mobile adaptation to new world realities Tzanelli examines the various agents involved in controversies through multiple virtual and real journeys to India's colonial history and present social complexity with a view to actualise a post colonial future a destiny as the country's serendipitous destination Addressed to interdisciplinary audiences the book will be a useful text for students and scholars of globalisation mobility tourism media and social movement theory

**Tourism and Citizenship** Raoul Bianchi, Marcus Stephenson, 2014-02-24 More than sixty years since the 1948 Universal Declaration of Human Rights first enshrined the right to freedom of movement in an international charter of human rights the issue of mobility and the right to tourism itself have become increasingly significant areas of scholarly interest and political debate However despite the fact that cross border travel implies certain citizenship rights as well as the material capacity to travel the manifold intersections between tourism and citizenship have not received the attention they deserve in the literature This book endeavours to fill this gap by being the first to fully examine the role of tourism in wider society through a critically informed sociological reflection on the unfolding relationships between international tourism and distinct renderings of citizenship with particular emphasis on the ideological and political alignments between the freedom of movement and the right to travel The text weaves its analysis of citizenship and travel in the context of addressing large scale societal transformations engendered by globalization neoliberalism and the geopolitical realignments between states as well as

comprehending the internal reconfiguring of the relationship between citizens and states themselves By doing so it focuses on key themes including tourism and social citizenship rights race culture and minority rights states markets and the freedom of movement tourism peace and geo politics consumerism and class and ethical tourism global citizenship and cosmopolitanism The book concludes that the advancement of genuinely democratic and just forms of tourism must be commensurate with demands for distributive justice and a democratic politics of mobility encompassing all of humanity This timely and significant contribution to the sociology and politics of international tourism through the lens of citizenship is a must read for students and scholars in both in the fields of tourism and social science The royalties received from this book will be donated to the International Porter Protection Group

Travel, Tourism and Identity Gabriel R. Ricci, 2015-06-01 Travel Tourism and Identity addresses the psychological and social adjustments that occur when people make contact with others outside their social cultural or linguistic groups Whether such contact is the result of tourism seeking exile or relocating abroad the volume s contributors demonstrate how one s identity cultural assumptions and worldview can be brought into question In some cases the traveler finds that bridging the social and cultural gap between himself and the new society is fairly easy In other cases the traveler discovers that reorienting himself requires absorbing a new cultural history and traditions The contributors argue that making these adjustments will surely enhance the traveler s or tourist s experience otherwise the traveler or tourist will be at risk of becoming a marginalized figure one disconnected from the society that surrounds him This latest volume in the

Culture Civilization series features a collection of essays on travel and tourism The essays cover a range of topics from historical travels to modern social identities They discuss ancient travels contemporary travels in Europe Africa and sustainable eco tourism and the politics of tourism Essays also address experiences of Grenada s Spice Island identity and the effects of globalization and migrations on personal identity **The Times Index** ,2013-06 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement Time educational supplement Scotland and the Times higher education supplement *Making the Past Present for the Future* Rahimah Abd.
