250cc and 360cc twins are subjected to considerable confusion surrounding the appropriate selection from the multitude of OEM publications that have recently flooded the on line marketplace This confusion is compounded by the fact that Honda used both 5 and 6 speed transmissions within the 1974 to 1977 production run of the 250 360 series Owners of the 1968 1973 twin cylinder 5 speed 250cc and 350cc models are directed to our Honda factory workshop manual ISBN 9781588502612 Owners of the 1961 1968 twin cylinder 250cc and 305cc C72 C77 series will require our Honda factory workshop manual ISBN 9781588500731 Finally please note that the text in the original Honda Factory Workshop Manual was translated from Japanese into English Consequently some of the phrasing grammar punctuation and word usage may be subtly different from that commonly used in the English language However the information as presented is readily understandable In addition while we have done our best to identify any anomalies errors and incorrect spelling that may have occurred during the original translation process we are certain that we will have missed one or two and we request your indulgence in ignoring them **The British National Bibliography** Arthur James Wells,1974
