Ward,2021-11-03 In Living Detroit Brandon M Ward argues that environmentalism in postwar Detroit responded to anxieties over the urban crisis deindustrialization and the fate of the city Tying the diverse stories of environmental activism and politics together is the shared assumption environmental activism could improve their quality of life Detroit Michigan was once the capital of industrial prosperity and the beacon of the American Dream It has since endured decades of deindustrialization population loss and physical decay in short it has become the poster child for the urban crisis This is not a place in which one would expect to discover a history of vibrant expressions of environmentalism however in the post World War II era while suburban middle class homeowners organized into a potent force to protect the natural settings of their communities in the working class industrial cities and in the inner city Detroiters were equally driven by the impulse to conserve their neighborhoods and create a more livable city pushing back against the forces of deindustrialization and urban crisis Living Detroit juxtaposes two vibrant and growing fields of American history which often talk past each other environmentalism and the urban crisis By putting the two subjects into conversation we gain a richer understanding of the development of environmental activism and politics after World War II and its relationship to the crisis of America s cities This book will be of great interest to students and scholars in environmental urban and labor history      **Minutes of Meeting** Michigan. Cialdella,2020-03-03 *Motor City Green* is a history of green spaces in metropolitan Detroit from the late nineteenth to the early twenty first century The book focuses primarily on the history of gardens and parks in the city of Detroit and its suburbs in southeast Michigan Cialdella argues that Detroit residents used green space to address problems created by the city s industrial rise and decline and racial segregation and economic inequality As the city s social landscape became increasingly uncontrollable Detroiters turned to parks gardens yards and other outdoor spaces to relieve the negative social and environmental consequences of industrial capitalism *Motor City Green* looks to the past to demonstrate how today s urban gardens in Detroit evolved from but are also distinct from other urban gardens and green spaces in the city s past
