Miracle Survivors Beating The Odds Of Incurable Cancer:

Miracle Survivors Tami Boehmer, 2014-11-11 If you have received an incurable cancer diagnosis hearing about someone who made it is like spotting a rescue ship when you're drowning in a stormy sea. *Miracle Survivors* provides that lifeline with a collection of stories of cancer survivors who were given a terminal diagnosis but shocked everyone by thriving years past their prognoses. These miracle survivors have different cancers and circumstances but share a poor prognosis and incredible drive to overcome it. After being diagnosed with stage IV breast cancer, award-winning author and blogger Tami Boehmer decided she and others like her desperately needed hope to override the dismal statistics and death sentences provided by many doctors. So she began interviewing incredible men and women from around the country who defied the odds and lived to tell about it. *Miracle Survivors* will help answer the question: What sets people apart who beat the odds of a terminal or incurable prognosis? Overcoming the odds wasn't something that just happened to those who share their stories. Each person took a very active role in overcoming their challenges, whether it was activating their faith or transforming their lifestyle. Rather than passively accepting their circumstances, they decided to transform them. The book is essential reading for anyone with cancer, their loved ones, and everyone else who wants inspiration to conquer their life challenges. [From Incurable to Incredible](#)

Tami Boehmer, 2010-06-09 *From Incurable to Incredible* is a book that everyone should read because it is filled with the wisdom of those who have confronted their mortality and let it become their teacher. Bernie Siegel, M.D., best-selling author of *Love, Medicine, and Miracles*, *Faith, Hope, and Healing*, and dozens of other books. *From Incurable to Incredible* features 27 stories of cancer survivors who shocked everyone by overcoming a terminal prognosis. You'll learn about Dave Massey, who in 1986 and again in 1997 was given six months to live. Today he runs marathons and speaks at cancer centers nationwide to spread his message of hope. Paul Falk, diagnosed 23 years ago at age 9 with acute leukemia, describes how his doctors wondered if he would survive two weeks. A year later he wowed everyone by becoming the personal guest of then Vice President George H.W. Bush. And then there's Mary Jacobson, who after being diagnosed with a rare form of cancer, bought a coffin and made arrangements for her young daughter. Fifteen years later, she competes in Strong Woman competitions and pulls planes, trains, and automobiles for charity. The book includes discussion questions, a list of common attributes these survivors share, as well as insights on survivorship by best-selling author Bernie Siegel and Doug Ulman, CEO and president of LIVESTRONG.
