Mining Tsar Kett Howard Kennedy, 1986-01      Reflecting Imperial Overstretch and New Realities Brian O'Sullivan, 2024-07-03 This book is the first comprehensive history of the British Trade Corporation which was constituted under a Royal Charter on 21st April 1917 Its charter was meant to last for sixty years but in 1926 after a turbulent existence of only nine years it was amalgamated with the Anglo Austrian Bank and absorbed into the Anglo International Bank The corporation together with its two main subsidiaries the Levant Company and the National Bank of Turkey conducted business not only in Britain but in Russia Turkey the Middle East and in Continental Europe Although the corporation was not an agent of empire it reflected Britain's imperialistic ambitions after the First World War As a result it invested in some of the most unstable regions of the world It was also severely affected by British foreign policy which was often misjudged and at times duplicitous resulting in serious damage to British trade Within five years of its launch the British Trade Corporation needed to be refinanced The economic downturn in the early 1920s and ongoing hostilities in Eastern Europe and the Near East meant that it struggled to survive Its difficulties reflected many of those faced by Britain in general after the war and the need to come to terms with the new realities of the post war world Despite its innovative attempt to address the perceived deficiencies in Britain's financial system especially in respect of industrial finance the British Trade Corporation has been largely ignored by financial historians Based on substantial archival research this book rectifies this neglect and makes an important contribution to the financial history of interwar Britain      On Arbitration Samuel Wordsworth, Marie Veeder, 2023-08-29 This volume brings together the most important articles lectures and essays of Van Vechten Johnny Veeder a towering figure in the worlds of international commercial arbitration and arbitration between States and foreign investors As noted by Judge Stephen Schwebel in his introduction to the volume Johnny Veeder was unsurpassed as an arbitrator tribunal chairman expositor analyst and historian of international arbitration The writings in this collection address a wide range of topics in the field including the historical context of international arbitration and its influence on the modern day practice the role and responsibilities of the arbitrator and the principles upholding international arbitration The included works span the length of Johnny's career drawing on his extensive learning and practical engagement They analyse the past and present while asking prescient questions about arbitration's future in a changing global context The reader of Johnny's essays and other contributions will profit by his extraordinary legal insight and by the breadth and depth of his devotion to the arbitral process The volume also gives a sense of his humanity of his warmth and wit Loved by his colleagues his students and indeed all those who came to know him this volume is in celebration of the extraordinary achievements of this remarkable jurist teacher and human being      Consolidated Gold Fields in Australia Robert Porter, 2020-04-29 Consolidated Gold Fields was a major British mining house founded by Cecil Rhodes in 1892 Diversifying from its South African gold interests the company invested widely during the following century This included investments in the Western Australian gold

sector from the 1920s and exploration and mining activities elsewhere in Australia and the Territory of New Guinea In the 1960s Consolidated Gold Fields Australia CGFA was formed CGFA had ambitious plans and the financial backing from London to establish itself as one of the main diversified mining companies in Australia Investments were held in the historic Mount Lyell Mining and Railway Company in Renison and it was one of the first groups to develop iron ore deposits in the Pilbara of Western Australia It also acquired a major interest in mineral sands While the London based Consolidated Gold Fields ceased to exist in 1989 taken over and dismembered by renowned corporate raider Hanson Plc its Australian subsidiary renamed Renison Goldfields Consolidated RGC continued for another nine years as a diversified mining group before it suffered its own corporate demise facilitated by Hanson CGFA and RGC were important participants in Australia's post World War II mining sector This book is a history of a once great British mining finance house and its investments in Australia Consolidated Gold Fields had a rich and broad history in Australia its ultimate fate did not demonstrate its potential as an Australian mining company *The Life of Herbert Hoover* George H. Nash, 1983 His family life business affairs and the other aspects of his life with the larger historical context Book Jacket International Bibliography of Business History Francis Goodall, Terry Gourvish, Steven Tolliday, 2013-12-16 The field of business history has changed and grown dramatically over the last few years There is less interest in the traditional company centred approach and more concern about the wider business context With the growth of multi national corporations in the 1980s international and inter firm comparisons have gained in importance In addition there has been a move towards improving links with mainstream economic financial and social history through techniques and outlook The International Bibliography of Business History brings all of the strands together and provides the user with a comprehensive guide to the literature in the field The Bibliography is a unique volume which covers the depth and breadth of research in business history This exhaustive volume has been compiled by a team of subject specialists from around the world under the editorship of three prestigious business historians *Making the Mount Isa Mine, 1923-1933* Donald Alexander Berkman, 1996 The Forgotten Fifties John Murphy, Judith Smart, 1997 Some of Australia's leading historians present new perspectives on social and cultural life in the 1950s The 1950s is usually treated in the popular media as a metaphor for an Australia that was complacent monocultural banal and domesticated On the other hand historical writing about the decade has long been dominated by accounts of political and foreign policy conflict the Labor Split the Cold War and the seemingly endless long summer of Robert Menzies This collection assembles some of Australia's leading historians to present new perspectives on the 1950s Focusing on social and cultural themes they reveal a decade full of contradictions which belie the common simplistic accounts of the time Ranging from the education of the young Barry Humphries to the idea of an Australian identity in the lead up to the 1956 Olympics these essays also include the personal recollections of three leading historians providing a lively and critical insight into the Australia of the period Drawing out themes such as style sexuality modernism the suburbs travel writing and immigrant assimilation the authors

excavate the experience of everyday life and the attitudes that characterised the 1950s They present a past that despite having shaped our lives continues to be disputed in contemporary Australia     The Man from Asarco Donald Chaput,1992
