**Management Information Systems, Second Edition** KELKAR, S. A., Kelkar S. A., 2009-11-23 It is widely recognized that the knowledge of information systems is very much essential in today's business organizations to survive and prosper. This book in its second edition provides students with a conceptual framework to understand information systems. The focus of information systems irrespective of the level of use of information is on producing quality information needed to facilitate decision making. The objective of this book is to capture the material on information systems and organize it around a framework that offers a current and relevant knowledge based on information system by providing just the adequate amount of material in a concise format. The book is organized in three parts: i) Information systems basics, ii) Managing with information, and iii) Managing information resources. Though the main structure of the second edition remains the same, the chapters have been updated and revised as per the recent development in the fields of information technology. Besides this, a new chapter is added to explain the concepts like e business, Customer relationship management, CRM, Enterprise resources and planning, ERP, and Supply chain management, SCM comprehensively. Intended for the students of computer applications, BCA and MCA and management BBA and MBA and the undergraduate students of Computer Science engineering, the book is equally useful for the busy professionals who wish to grasp the essentials of management information systems without attending a formal instructional course.

*Management Information Systems : Made Easy* Dr. Padmakar Shahare I Dr. Ajay Pethe I Dr. Mukul Burghate, Rapid globalization coupled with the growth of the Internet and Information Technology (IT) has led to a complete transformation in the way businesses or organizations function today. This has not only affected the management culture but has also led to an increase in competition in terms of markets and resources. Businesses have become more customer driven and e business is gaining popularity. Traditional means of communication, correspondence, have given way to online dealings, e mails and chats. With such a radical shift in the approach to doing business came the need for specialized systems to handle the various departments and functions in an organization. Management Information System or MIS is an organized and well structured system used by organizations for the collection, storage, processing and dissemination of data in the form of information that facilitates the smooth functioning of the organization. Management information systems involve three primary resources: people, technology and information or decision making. It is in this context a textbook on introduction to the subject of MIS is presented to the students of Management program. The book contains the syllabus from basics of the subjects going into the intricacies of the subjects. All the concepts have been explained with relevant examples and diagrams to make it interesting for the readers. An attempt is made here by the experts to assist the students by way of providing case based study material as per the curriculum with non commercial considerations. However, it is implicit that these are exam oriented Study Material and students are advised to attend regular class room classes in the Institute and utilize reference books available in the library for In depth knowledge.
