Mission to Million Elizabeth Frisch, 2014      *Make Millions And Make Change*,      *What's the Big Idea?* Robert G. Lee, 2021-03-18 What's the Big Idea is a smart aleck's commentary on the intersection between faith and science told through the lens of the author's own personal journey of belief. It uses both humor and heart to lay out overwhelming evidence for the existence of an Intelligent Designer. This book is aimed at our current short attention span society that is fluent in both cynicism and sarcasm. People who appreciate *The Onion* and *The Babylon Bee* will enjoy the satirical approach the author uses when he dissects both science and religion. Readers of *The Case for Christ* will be drawn to the well researched information explaining why Christianity is a faith founded on reason and intellect while Christian parents of teens and millennials will appreciate a book they can share with their children that proves theirs is not a mindless faith. Throughout the book the reader will be stunned by the awe inspiring amount of precise fine tuning our world and universe demand as well as be amazed at how much information they've totally forgotten since high school.      *The Employer Brand* Simon Barrow, Richard Mosley, 2005-11-04 Levels of employer brand awareness are rising fast across Europe, North America and Asia Pacific as leading companies realise that skilled motivated employees are as vital to their commercial success as profitable customers and apply the principles of branding to their own organization. Starting with a review of the pressures which have generated current interest in employer branding this definitive book goes on to look at the historical roots of brand management and the practical steps necessary to achieve employer brand management success including the business case, research, positioning, implementation, management and measurement. Case studies of big name employer brand stories include Tesco, Wal Mart, British Airways and Prt a Manger.      *China's Millions*, 1880      *The Identity Crisis Collection* Scott Overton, 2025-06-14 A collection of three science fiction thrillers that take the question of identity into whole new realms. **THE PRIMUS LABYRINTH** A woman's bloodstream has been seeded with death. An American president must betray his country or sacrifice a woman he loves. And their only hope lies with a broken man and a desperate gamble. Curran Hunter almost died at the bottom of the ocean. Now an innocent victim will die unless Hunter can purge her body of deadly devices by piloting the Primus, a prototype submersible the size of a virus. Its control system uses Virtual Reality; its creators assure Hunter there can be no danger. They are utterly wrong. Hunter's every belief will be tested, his very sanity on the line for a woman he doesn't know. And to save her life will require the deepest violation of all. Ride the currents of the inner ocean in a race against time in **The Primus Labyrinth**. **NA DA** The glowing structure at the bottom of a lonely northern lake is not of this Earth. But Michael Hart can't stay away. His choice will bring him astonishing abilities and a destiny he could never have imagined. A hero. Or the greatest traitor the world has ever known. Because he is no longer alone, not even in his own body. There is another. **Na da**. **THE DISPOSSESSION OF DYLAN KNOX** Dylan Knox is not the man he was. He may be like no man who ever existed. What do you do if an old high school sweetheart doesn't remember you acts like a different person each

time you meet and might even be a threat to your country Dylan s tale of castaways in time and space is utter fantasy Unless it s too crazy not to be true Brooke Chappelle has two choices trust or betrayal And falling in love is the last thing she needs
