in Child Development* Julia Clark Hallam,2015-06-25 Excerpt from Studies in Child Development A Manual for Mothers and
Mother s Clubs During the past twelve years in connection with the work of Mother s Child Study clubs I have spoken many
times to audiences composed of mothers Among the things which have impressed me most strongly in this work is the fact
that there are hundreds of mothers especially young mothers who appreciate the importance of securing a broader
knowledge of their children but do not know where to look for it They know in a general way that experiments and

investigations are being made along the line of child study and that books are being written upon the subject but this material is slow in making its way into the public libraries and even there it is often not in a form as to be really available Perhaps the first question asked when a mothers club has been organized is What book shall we use as a basis for our study For a number of years I searched for such a book but failed to find it Most of the volumes on child study contain valuable material but either present it in too technical a form for the average mother or present too much of the theoretical and too little of the practical to adapt the work to everyday conditions At last I determined to prepare a book which should contain such material as seemed to be most needed and most often called for a book which should answer the questions that have been asked me most frequently by mothers About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
