Ingredients in Meat Products Rodrigo Tarté, 2009-02-21 There is little doubt that today's food industry is faced with a rapidly changing market landscape The obvious need to continue to provide consumers with nutritious delectable safe and affordable food products which are also profitable for food manufacturers as well as the ongoing challenge of ensuring the delivery of adequate nutrition to hundreds of millions of disadvantaged people around the world appears at least as much as if not more than ever to be at odds with the challenges posed by soaring energy and food commodity prices fast paced changes in consumer demographics habits and preferences and the continual need to stay ahead of current and emerging food safety issues In addition to this the present ubiquity in the industry of terms such as functional foods nutraceuticals low sodium low fat clean label minimal processing and natural to name a few underscores yet a different dimension of the challenges faced by food processors today On the other hand however the solutions of many of these challenges may concurrently present the food industry with unique and exciting opportunities The processed meat industry despite its long history and tradition is certainly not exempt from having to face these modern challenges nor excluded from realizing the promises of the opportunities that may lie ahead

BMH as Body Language W. Boyd Barrick, 2008-06-01 It is customarily assumed that the Hebrew word BMH denotes a high place first a topographical elevation and derivatively a cult place elevated either by location or construction This book offers a fresh systematic and comprehensive examination of the word in those biblical and post biblical passages where it supposedly carries its primary topographical sense Although the word is used in this way in only a handful of its attestations they are sufficiently numerous and contextually diverse to yield sound systematic rather than ad hoc conclusions as to its semantic content Special attention is paid to its likely Semitic and unlikely Greek cognates pertinent literary compositional and text critical matters and the ideological and iconographical ambiance of each occurrence This study concludes that the non cultic word BMH is actually bomet carrying primarily if not always an anatomical sense approximate to English back sometimes expanded to the body itself The phrase bmtys Amos 4 13 Micah 1 3 and CAT 1 4 VII 34 also Deut 32 13a Isa 58 14ab ba and Sir 46 9b derives from the international mythic imagery of the Storm God it refers originally to the mythological mountains conceptualized anthropomorphically which the god surmounts in theophany symbolically expressing his cosmic victory and sovereignty There is no instance where this word even 2 Sam 1 19a and 1 25b is unequivocally a topographical reference The implications of these findings for identifying the bamah sanctuary are briefly considered
