Victorien Sardou, 19?? **Strange Revelations** Lynn Wood Mollenauer, 2007-01-01 The Affair of the Poisons was the greatest court scandal of the seventeenth century From 1679 to 1682 the French crown investigated more than 400 people including Louis XIV's official mistress and

members of the highest ranking circles at court for sensational crimes In *Strange Revelations* Lynn Mollenauer brings this bizarre story to life exposing a criminal magical underworld thriving in the heart of the Sun King's capital The macabre details of the Affair of the Poisons read like a gothic novel In the fall of 1678 Nicolas de la Reynie head of the Paris police uncovered a plot to poison Louis XIV La Reynie's subsequent investigation unveiled a loosely knit community of sorceresses magicians and renegade priests who offered for sale an array of services and products ranging from abortions to love magic to poisons known as inheritance powders It was the inheritance powders usually made from powdered toads steeped in arsenic that lent the Affair of the Poisons its name The purchasers of the powders gave the affair its notoriety for the scandal extended into the most exalted ranks of the French court Mollenauer adroitly uses the Affair of the Poisons to uncover the hidden forms of power that men and women of all social classes invoked to achieve their goals While the exercise of state power during the ancien régime was quintessentially visible ritually displayed through public ceremonies the affair exposes the simultaneous presence of other imagined and real sources of power available to the Sun King's subjects magic poison and the manipulation of sexual passions Highly entertaining yet deeply researched *Strange Revelations* will appeal to anyone interested in the history of court society gender magic or crime in early modern Europe
