Metaskills Five Talents For The Robotic Age:

Metaskills Marty Neumeier, 2012-12-20 In a sweeping vision for the future of work Neumeier shows that the massive problems of the 21st century are largely the consequence of a paradigm shift a shuddering gear change from the familiar Industrial Age to the unfamiliar Robotic Age an era of increasing man machine collaboration This change is creating the Robot Curve an accelerating waterfall of obsolescence and opportunity that is currently reshuffling the fortunes of workers companies and national economies It demonstrates how the cost and value of a unit of work go down as it moves from creative to skilled to rote and finally to robotic While the Robot Curve is dangerous to those with brittle or limited skills it offers unlimited potential to those with metaskills master skills that enable other skills Neumeier believes that the metaskills we need in a post industrial economy are feeling intuition and empathy seeing systems thinking dreaming applied imagination making design and learning autodidactics These are not the skills we were taught in school Yet they re the skills we ll need to harness the curve In explaining each of the metaskills he offers encouragement and concrete advice for mastering their intricacies At the end of the book he lays out seven changes that education can make to foster these important talents This is a rich exciting book for forward thinking educators entrepreneurs designers artists scientists and future leaders in every field It comes illustrated with clear diagrams and a 16 page color photo essay Those who enjoy this book may be interested in its slimmer companion *The 46 Rules of Genius* also by Marty Neumeier Things you ll learn in *Metaskills* How to stay ahead of the robot curve How to account for latency in your predictions The 9 most common traps of systems behavior How to distinguish among 4 types of originality The 3 key steps in generating innovative solutions 6 ways to think like Steve Jobs How to recognize the 3 essential qualities of beauty 24 aesthetic tools you can apply to any kind of work 10 strategies to trigger breakthrough ideas Why every team needs an X shaped person How to overcome the 5 forces arrayed against simplicity 6 tests for measuring the freshness of a concept How to deploy the 5 principles of unclinging The 10 tests for measuring great work How to sell an innovative concept to an organization 12 principles for constructing a theory of learning How to choose a personal mission for the real world The 4 levels of professional achievement 7 steps for revolutionizing education From the back cover Help A robot ate my job If you haven t heard this complaint yet you will Today s widespread unemployment is not a jobs crisis It s a talent crisis Technology is taking every job that doesn t need a high degree of creativity humanity or leadership The solution Stay on top of the Robot Curve a constant waterfall of obsolescence and opportunity fed by competition and innovation Neumeier presents five metaskills feeling seeing dreaming making and learning that will accelerate your success in the Robotic Age [Powering Up a Career in Robotics](#) Peter K. Ryan, 2015-07-15 This intriguing book will pique the interest of all young people regardless of whether they are technically inclined The reason is that robots are all around us and will only gain in popularity This title educates readers on the various careers in the robotics industry from building robots to the back end work There s a place for everyone from the mathematically inclined to

the artistically gifted With STEM being a major focus of today s educators this book will surely be a hit with students and librarians alike **The 46 Rules of Genius** Marty Neumeier,2014 Marty Neumeier acclaimed author of The Brand Gap and other books on business creativity has compressed decades of practical experience into The 46 Rules of Genius 46 glittering gems that will light students path to creative brilliance This is an essential handbook for students in graphic design branding marketing business Journalism and writing courses and more The rules in this book are timeless None of them are new yet they can help students create something new Michelangelo didn t invent the hammer and chisel but by using these tools he sculpted the Piet And just as you can t shape a block of marble with your bare hands you can t shape ideas with your bare mind You need rules Rules are the tools of genius Use them when they help put them aside when they don t Most creative people are focused on their projects and reading a long book is a luxury they can ill afford So here s a slim volume with bite size advice Students can reach into it randomly underline its salient points and return to its rules as needed Neumeier starts with advice on strategy or how to get the right idea He continues with practical tips on execution how to get the idea right From there he moves on to building creative skills over time and finally to putting your brilliance to work in the larger world
