analysis We are invited to enter the world of understanding and observation to experience for ourselves an unusual approach to dialectical thinking

Albanian: Muslim Contributions to World Civilization M. Basheer Ahmed, Syed A. Ahsani, & Dilnawaz A. Siddiqui,2019-01-01 Islam s brilliant contributions to science art and culture are a timeless and precious heritage which should be historically preserved for future generations The great achievements of Muslim scholars are rarely if at all acknowledged in formal education and today their identity origins and impact remain largely obscure This collection of papers aims to give readers a brief introduction to the intellectual history of Muslims and the contributions that eminent Muslim scholars have made in certain specific fields of knowledge including basic and applied physical and biological sciences medicine legal and political theories and practices economic and financial concepts models and institutions etc The preservation of civilization necessitates a better understanding sharing and recognition of our common human heritage Given today s widespread negative stereotyping and falsely generated misunderstanding of Islam and Muslims the publication of these papers on Muslim Contributions to World Civilization is vital to help repair the wrong that is being perpetrated and restore the historical truth which is being distorted
