Ladn Du Leadership:

Perspectives on Thought Leadership for Africa's Renewal Kondlo, Kwandiwe, 2014-05-05 This book outlines perspectives of emerging and established African scholars on what one could describe as the debate on leadership and the articulation of the life of the mind in Africa's socio economic political and cultural life from the time of independence to date. The papers contained in the book cover the following thematic areas: Alternative Leadership Paradigm for Africa's Advancement, African Perspectives on Globalisation and international relations, Pan Africanism and the African Renaissance, Scientific, Technological and Cultural Dimensions of African Development. The first section deals with alternative leadership paradigms for Africa's advancement. It also debates the thin line separating management studies from leadership studies and untangles the hermeneutic complexities in the term leadership. Section two examines among other things the crucial challenge of globalisation and public ethics and others African perspectives. The section also interrogates the current complexities and credibility deficits in the global governance of trade and towards the end engages philosophical questions about conscience and consciousness in African development and progress. The debates in section three continue to section four and focus on the overall issues of language and liberation, the significance of Multi Inter and Trans Disciplinary Approaches in the analysis of the African continent, appropriate indigenous paradigms for promoting the African renaissance as well as a series of debates on the meaning and prospects of regional integration in Africa's renewal. This provides just a snapshot of a very wide ranging and interesting debate contained in the publication.

Why We Won't Talk Honestly About Race Harry Stein, 2013-10-22 In the Age of Obama the ugly charge of racism is more prevalent than ever. Why? Because telling the truth about racial profiling, crime, the social fallout of single parent homes and the ways racial preferences distort the very meaning of equity and justice would mean facing up to the soul destroying pathologies of urban black culture. Instead, black leaders and their guilty white allies focus tirelessly on historic oppression and the supposed need for more government aid and demonize those who challenge their shopworn views as what else? racist. In Why We Won't Talk Honestly About Race formerly No Matter What They'll Call This Book Racist Harry Stein attacks the rigid prohibitions that have long governed the conversation about race: not to offend or shock, though they certainly will, but to provoke the serious thinking that liberal enforcers have until now rendered impossible. Stein examines the ways in which the regime of racial preferences has sown division, corruption and resentment in this country. He pays special attention to the stifling falsehood that it is racism that continues to mire millions of underclass blacks in physical and spiritual poverty. By far the greater problem, says Stein, is the culture of destructive attitudes and behaviors that denies those in its grip the means of escape. For all the remarkable progress this country has made on race in the past half century, liberals insist for their own political and psychological purposes on clinging to the notion of America as irredeemably racist. All of us, and especially black people, for too long have been living with the terrible consequences of that cruel canard.
