 Macé,2003 G rard Mac s work challenges the barriers between poetry and the essay This play between and within genres is
 essential to his writing which has been called essay merveilleux and derives from a questioning of language in its broadest
 sense He is equally interested in the seductive musicality of words and in the remembered gestures which traced the
 hieroglyphs of Egypt and the calligraphic writing of the Far East His fascination with dictionaries grammars and glossaries
 leads him off on journeys in which the real and the imaginary are fused but without being confused He slips between words
 like a marvelling child constantly hoping that one day the world might be read like an open book This edition brings together
 three series of prose poems Le Jardin des langues 1974 Le balcon de Babel 1977 and Bois dormant 1983 Other books by Mac

 takes up the relationship between memory and writing in the form of Lives as in the Lives of saints or illustrious men and La
 m moire aime chasser dans le noir 1993 which develops his fascination with the image the poetic image dream image and
 photographic image Timothy Mathews took over as G rard Mac s translator for this edition following the death of David
