Philosophy of Psychology Kengo Miyazono, Lisa Bortolotti, 2021-04-28 Are we rational creatures Do we have free will Can we ever know ourselves These and other fundamental questions have been discussed by philosophers over millennia But recent empirical findings in psychology and neuroscience suggest we should reconsider them This textbook provides an engrossing overview of contemporary debates in the philosophy of psychology exploring the ways in which the interaction and collaboration between psychologists and philosophers contribute to a better understanding of the human mind cognition and behaviour Miyazono and Bortolotti discuss pivotal studies in cognitive psychology social psychology developmental psychology evolutionary psychology clinical psychology and neuroscience and their implications for philosophy Combining the latest philosophical and psychological research with an accessible style Philosophy of Psychology is a crucial resource for students from either discipline It is the most up to date text for modules on philosophy of mind philosophy of psychology philosophy of mental health and philosophy of cognitive science

The Critical Imagination James Grant, 2013-04-11 The Critical Imagination is a study of metaphor imaginativeness and criticism of the arts Since the eighteenth century many philosophers have argued that appreciating art is rewarding because it involves responding imaginatively to a work Literary works can be interpreted in many ways architecture can be seen as stately meditative or forbidding and sensitive descriptions of art are often colourful metaphors music can shimmer prose can be perfumed and a painter's colouring can be effervescent Engaging with art like creating it seems to offer great scope for

imagination Hume Kant Oscar Wilde Roger Scruton and others have defended variations on this attractive idea In this book James Grant critically examines it The first half explains the role imaginativeness plays in criticism To do this Grant answers three questions that are of interest in their own right First what are the aims of criticism Is the point of criticizing a work to evaluate it to explain it to modify our response to it or something else Second what is it to appreciate art Third what is imaginativeness He gives new answers to all three questions and uses them to explain the role of imaginativeness in criticism The book's second half focuses on metaphor Why are some metaphors so effective How do we understand metaphors Are some thoughts expressible only in metaphor Grant's answers to these questions go against much current thinking in the philosophy of language He uses these answers to explain why imaginative metaphors are so common in art criticism The result is a rigorous and original theory of metaphor criticism imaginativeness and their interrelations

A Dog Pissing at the Edge of a Path Gregory Forth, 2019-12-12 The Nage people of the eastern Indonesian island of Flores refer to someone who begins something but is regularly distracted by other matters as a dog pissing at the edge of a path In this first comprehensive study of animal metaphors in a non Western society Gregory Forth focuses on how the Nage understand metaphor and use their knowledge of animals to shape specific expressions Based on extensive field research A Dog Pissing at the Edge of a Path explores the meaning and use of over 560 animal metaphors employed by the Nage Investigating how closely their indigenous concept of pata p le corresponds to the Greek derived English concept of metaphor Forth demonstrates that the Nage people understand these figures of speech in the same way as Westerners namely as conventional ways of speaking about people and objects not expressions of an essential identity between their animal vehicles and human referents Theoretically engaging with anthropology's recent ontological turn the book considers whether metaphors reveal significant differences in conceptions of human animal relations the human animal contrast and human understanding of other humans in different parts of the world An incredible catalogue of animal based linguistic art and Nage verbal conventions A Dog Pissing at the Edge of a Path illuminates essential features of metaphorical thought everywhere

Manipulation Robert Noggle, 2025-02-24 Gaslighting flattery misdirection nagging emotional blackmail charm offensives playing on emotions These are all examples of ordinary manipulation Such manipulation is common in everyday life which is unfortunate since manipulation seems like a bad thing Manipulation Its Nature Mechanisms and Moral Status answers three questions about manipulation what is it how does it work and why is it bad Addressing the first question requires us to find something that all forms of manipulation have in common but which is not shared by other forms of influence Robert Noggle argues that the common feature of all forms of ordinary manipulation is that they are mistake inducing This idea is the basis for the Mistake Account of manipulation which defines manipulation as a kind of influence that operates by introducing a mistake into the mental states or processes of the person being influenced To explain how manipulation works this book explores the psychological levers that manipulators use to get us to make the mistakes that will

get us to do what they want These include various cognitive and decision making biases our tendency to choose the lesser good over the greater good when the lesser good is immediately available and the simple fact that human reason is an imperfect thing To explain why manipulation seems like a bad thing Noggle first argues that while manipulation is always presumptively immoral it can be justified in extreme situations He then shows that manipulation s presumptive immorality derives from the fact that it involves getting someone to make a mistake and making a mistake is a bad thing However the most morally egregious instances of manipulation also have bad effects on well being and autonomy This book concludes by applying the Mistake Account to various influences including priming conditioning nudges advertising sales and online influences
