pasnormale (The Postnormal Times Reader) Ziauddin Sardar, 2023-01-01 We live in a period of accelerating change New
trends technologies and crisis emerge rapidly and transform familiar social and political landscapes Established and
cherished ideals with deep historical roots can be overturned overnight Unconventional and uncommon notions and events
can appear as though from nowhere proliferate and become dominant The last few years alone have witnessed the
emergence of populism and the far right in Europe and the US Brexit cracks in the European Union cyber wars accompanied
by the re emergence of a cold war China as an increasingly dominant new superpower Pandemics like the Ebola and Zika
viruses Climate change leading to extreme weather events Driverless cars AI Fake News Alternative Facts Post Truth
Disruptive technologies that disrupt and often corrupt everything Everything seems to be in a state of flux nothing can be
trusted All that we regard as normal is melting away right before us The postnormal times theory attempts to make sense of
a rapidly changing world where uncertainty is the dominant theme and ignorance has become a valuable commodity The
Postnormal Times Reader is a pioneering anthology of writings on the contradictory complex and chaotic nature of our era It
covers the origins theory and methods of postnormal times and examines a host of issues ranging from climate change
governance Middle East to religion and science from the perspective of postnormal times By mapping some of the key local
and global issues of our transitional age the Reader suggests a way of navigating our turbulent futures Wholeness and
Holiness in Education (Albanian Language) Zahra Al Zeera, 2019-01-01 Critically examining the Western secular approach to
formal education the author contests the value of an education system focusing solely on the intellectual and physical aspects
of human development The methodological aim and structure of this approach are compared to those of Islam which Dr Al
Zeera notes gives credence to the importance of spiritual and religious factors as well as scholarly ones with the overall
objective of forming whole and holy human being who instead of resisting the paradoxes of life uses their interrelatedness as
a means of personal and societal development One interesting factor examined within the broader framework of the study is
the area of female spirituality an element which the author argues is vastly under represented in prevalent Islamic literature
This study is a holistic view of knowledge and a sociological discussion adopting an unconventional approach of using the
