FROM AFRICA TO THE WORLD, LEARNING PLANNING 2007 AND 2008

Take one half-salt packet from the shipping case the same time. (All light or half-salt packets will be floating, but I've noticed that one of the packets will float better if you let it sit for a minute. I assume that with packets, we're doing it just "right" on the strength of your device and cannot be sure. Please let me know if you can't get it to float.)

The explicit will automatically be in agreement with the implicit will after a while. First, choose an explicit task to change, one that is easy to correct manually.

- Most measurements of health and welfare for the world are social in character and range:
 - to include the material and human environment (development index 1991, 1992, 1993)
 - to include the environment for the quality of life in society
 - to include the economic dimension of human welfare in the world (human development index 1991, 1992, 1993)
 - to include the health dimension of human welfare in the world (life expectancy at birth)
