**The Church Year at Home** Christine E. Curley, 2021-07-28 For parents in today's world it can be hard to find the time and resources to fully equip our children to be spiritually mature adults. So much demands our attention and distracts us from God. Curley offers a resource to help parents structure their days and weeks to glorify God and disciple children. Using the church calendar as a guide, she proposes simple and realistic ways as well as resources for the whole family to engage in the Scriptures and thereby push back on the unrelenting culture of today. What meanings does childhood have for evangelical adults? How does this shape their engagements with children and with schools? And what does this mean for the everyday realities of children's lives? Based on in-depth ethnographic fieldwork carried out in three contrasting evangelical churches in the UK, Anna Strhan reveals how attending to the significance of children within evangelicalism deepens understanding of evangelicals' hopes, fears, and concerns not only for children but for wider British society. Developing a new relational approach to the study of children and religion, Strhan invites the reader to consider both the complexities of children's agency and how the figure of the child shapes the hopes, fears, and imaginations of adults within and beyond evangelicalism. *The Figure of the Child in Contemporary Evangelicalism* explores the lived realities of how evangelical Christians engage with children across the spaces of church, school, home, and other informal educational spaces in a de-Christianizing cultural context: how children experience these forms of engagement and the meanings and significance of childhood. Providing insight into different churches' contemporary cultural and moral orientations, the book reveals how conservative evangelicals experience their understanding of childhood as increasingly countercultural, while charismatic and open evangelicals locate their work with children as a significant means of engaging with wider secular society. Setting out an approach that explores the relations between the figure of the child, children's experiences, and how adult religious subjectivities are formed in both imagined and practical relationships with children, this study situates childhood as an important area of study within the sociology of religion and examines how we should approach
