- a. Direct materials are an integral part of a finished product and their costs can be conveniently traced to it.

- c. Direct labor consists of labor costs that can be easily traced to particular products. Direct labor is also called "touch labor."

- b. Relevant range: The relevant range is the range of activity within which assumptions about variable and fixed cost behavior are valid.

**1-7** An activity base is a measure of whatever causes the incurrence of a variable cost. Examples of activity bases include units produced, units sold, letters typed, beds in a hospital, meals served in a cafe, service calls made, etc.

**1-8** The linear assumption is reasonably valid providing that the cost formula is used only within the relevant range.
