## McCULLOCH PROFESSIONAL CHAIN SAWS

### 550 DIRECT DRIVE

Take this saw out in the woods or onto a construction site where big power is a must, and you'll see how it's engineered to cut all day, big after day. It has automatic chain and bar oiling with a separate primer system should you need added oil for extra tough cutting jobs. Finger tip primer gives instant starts, while its oil governor ensures steady, safe oiling. Rebreather cylinder, weather-resistant ignition, and 40:1 fuel mix with McCulloch's oil are standard on all McCullochs.

### McCULLOCH Does It Again! Easy-Pull, 2-Finger Starting with **DSP**

#### 795 DIRECT DRIVE

DSP is short for De-Sticking Pull. And that's the shortest way to easier starting on your 795. It actually takes 50% less pull to start the 795, making it the safest, easiest starting professional direct drive chain saw available. In addition, you get automatic bar and chain oiling with a separate manual system, finger tip primer, oil governor, rebreather cylinder, 40:1 fuel mix, power boost carburetor and many more professional features. See details on reverse side.

DSP EASY-PULL STARTING on the 795 and 895 not only takes the pain out of starting, but it means safer starts with either hand in any saw position. Just push the lever, pull the starter rope, and DSP does the rest. Here's one feature you've got to try to believe.

When the DSP lever is pressed, a port opens in the cylinder. Gas pressure, not needed during starting action, passes out this opening, effectively shortening the stroke. As engine starts, the port is closed by lever action to restore maximum compression for full power cutting.
