Analysis of Cross Section and Panel Data, second edition Jeffrey M. Wooldridge, 2011-06-24 This is the essential companion to the second edition of Jeffrey Wooldridge's widely used graduate econometrics text. The text provides an intuitive but rigorous treatment of two state-of-the-art methods used in contemporary microeconomic research. The numerous end-of-chapter exercises are an important component of the book, encouraging the student to use and extend the analytic methods presented in the book. This manual contains advice for answering selected problems, new examples, and supplementary materials designed by the author which work together to enhance the benefits of the text. Users of the textbook will find the manual a necessary adjunct to the book.
