Muhammad Critical Lives:

The Life and Work of Muhammad Yahiya Emerick, 2002 Given the current prominence of Islam it has become more important than ever that Westerners and Muslims gain an accurate look at who Muhammad was and what he stood for Provides a fascinating picture of both Muhammad and the world in which he lived Rather than settling in to the comfortable life of a merchant Muhammad had a vision of himself bringing the message of the one God to his idolatrous people Coverage includes the claim to prophethood Muhammad's teachings and his first converts the Muslim flight to Medina Muhammad's battles and the eventual bloodless Muslim conquest of Mecca Muhammad's political victory in the Arabian peninsula and wars with Byzantium and Persia the death of Muhammad and the ways in which his message lived beyond him and Muhammad's place in history his role in Muslim theology and cosmology the ways he is viewed in different Muslim sects and regions and the influence of Muhammad today in Islamic movements both peaceful and fundamentalist *Critical Lives:*

Muhammad Yahiya Emerick, 2002-04-01 Muhammad was a religious visionary and political leader Raised in the harsh Arabian Peninsula and orphaned while still a child this unlikely leader and military genius received a calling to transform his society from a collection of raiding tribes into one of the world's most progressive societies His message of monotheism and righteousness motivated an entire people to abandon idolatry and spread the word of God to surrounding nations Although he was a military genius his greatest accomplishments came from the religion he preached Islam which called its adherents to lead a life of prayer charity and contemplation The second largest religion in the world both Islam's prophet and its values are today often misunderstood by adherents and outsiders alike This concise informative biography explores Muhammad's background and boyhood as well as the culture and society in which he lived A look at Muhammad as a family man and how his personal life was a testament to his high regard for women Muhammad's mission as a prophet and his new religion's philosophy on topics ranging from monotheism to interfaith relations The Qur'an and how it was revealed how Muslims view it in their religious life and the concept of Jihad from Muhammad's perspective The Critical Lives series takes a biographical look at pivotal fascinating people and a critical look at the work and accomplishments that rightly or wrongly made them unique influential and enduring Discover the events that shaped their lives and how they came to shape our world

Routledge Handbook on Early Islam Herbert Berg, 2017-08-10 The formative period of Islam remains highly contested From the beginning of modern scholarship on this formative period scholars have questioned traditional Muslim accounts on early Islam The scholarly fixation is mirrored by sectarian groups and movements within Islam most of which trace their origins to this period Moreover contemporary movements from Salafists to modernists continue to point to Islam's origins to justify their positions This Handbook provides a definitive overview of early Islam and how this period was understood and deployed by later Muslims It is split into four main parts the first of which explores the debates and positions on the critical texts and figures of early Islam The second part turns to the communities that identified their origins with the Qur'an and Mu

ammad In addition to the development of Muslim identities and politics of particular focus is the relationship with groups outside or movements inside of the umma the collective community of Muslims The third part looks beyond what happened from the 7th to the 9th centuries CE and explores what that period the events figures and texts have meant for Muslims in the past and what they mean for Muslims today Not all Muslims or scholars are willing to merely reinterpret early Islam and its sources though some are willing to jettison parts or even all of the edifice that has been constructed over almost a millennium and a half The Handbook therefore concludes with discussions of re imaginations and revisions of early Islam and its sources Almost every major debate in the study of Islam and among Muslims looks to the formative period of Islam The wide range of contributions from many of the leading academic experts on the subject therefore means that this book will be a valuable resource for all students and scholars of Islamic studies as well as for anyone with an interest in early Islam
