Identity and Dialect Performance Reem Bassiouney, 2017-10-24 Identity and Dialect Performance discusses the relationship between identity and dialects It starts from the assumption that the use of dialect is not just a product of social and demographic factors but can also be an intentional performance of identity Dialect performance is related to identity construction and in a highly globalised world the linguistic repertoire has increased rapidly thereby changing our conventional assumptions about dialects and their usage The key outstanding feature of this particular book is that it spans an extensive range of communities and dialects Italy Hong Kong Morocco Egypt Syria Japan Germany The Sudan The Netherlands Nigeria Spain US UK French Guiana Colombia and Libya

Language Diversity in the Classroom John Edwards, 2009-11-16 This book provides comprehensive coverage of language contact in classroom settings A thorough analysis of the sources and implications of social disadvantage is presented first since the nonstandard dialects that children bring with them to school and the unfavourable perceptions of these dialects have traditionally given rise to educational difficulties The persistence of these perceptions is particularly highlighted More general issues surrounding the range and implications of language attitudes are dealt with as is the important test case of Black English The book also discusses foreign language teaching and learning as well as the assumptions and intentions underpinning bilingual and multicultural education Given its breadth and its style this book
