For courses in Java Programming: A fundamentals first introduction to basic programming concepts and techniques. Designed to support an introductory programming course, *Introduction to Java Programming and Data Structures* teaches you concepts of problem solving and object-oriented programming using a fundamentals first approach. As beginner programmers, you learn critical problem solving techniques, then move on to grasp the key concepts of object-oriented GUI programming, advanced GUI and Web programming using JavaFX. This course approaches Java GUI programming using JavaFX, which has replaced Swing as the new GUI tool for developing cross-platform rich Internet applications and is simpler to learn and use. The 11th edition has been completely revised to enhance clarity and presentation and includes new and expanded content, examples, and exercises.

MyLab Programming MyLab Programming™ is an online learning system designed to engage students and improve results. MyLab Programming consists of programming exercises correlated to the concepts and objectives in this book. Through practice exercises and immediate personalized feedback, MyLab Programming improves the programming competence of beginning students who often struggle with the basic concepts of programming languages. 0134756436 9780134756431
