

■ To avoid confusion, ALWAYS label the spark plug wires with a piece of tape before disconnecting them from the plug or distributor cap. Always use the firing order you observe on your engine over the one depicted here!

■ It has come to our attention that there are a certain number of 3.0L engines out there that may detail the firing order as 1-4-3-2 on the spark arrestor. Although there is nothing in Mercruiser literature to confirm this, we have provided pictures of these engines as well. If your engine has this odd firing order marking, please be sure to confirm its correctness by observing the distributor cap and spark plug wire routing.
