Map Librarianship Susan Elizabeth Ward Aber,Jeremy Aber,2016-11-04 Map Librarianship identifies basic geoliteracy concepts and enhances reference and instruction skills by providing details on finding downloading delivering and assessing maps remotely sensed imagery and other geospatial resources and services primarily from trusted government sources By offering descriptions of traditional maps geographic information systems GIS remote sensing and other geospatial technologies the book provides a timely and practical guide for the map and geospatial librarian to blend confidence in traditional library skill sets Includes rarely discussed concepts of citing and referencing maps and geospatial data fair use and copyright Creates an awareness and appreciation of existing print map collections while building digital stewardship with surrogate map and aerial imagery collections Provides an introduction to the theory and applications of GIS remote sensing participatory neogeography and neocartography practices and other geospatial technologies Includes a list of geospatial resources with descriptions and illustrations of commonly used map types and formats online geospatial data sources and an introduction to the most commonly used geospatial software packages available on both desktop and mobile platforms

Agriculture Handbook ,2017 **Water Management and Water Governance** Ashish Pandey,S.K. Mishra,M.L. Kansal,R.D. Singh,V.P. Singh,2020-11-11 This book focusses on hydrological modeling water management and water governance It covers the applications of remote sensing and GIS tools and techniques for land use and land cover classifications estimation of precipitation evaluation of morphological changes and monitoring of soil moisture variability Moreover remote sensing and GIS techniques have been applied for crop mapping to assess cropping patterns computation of reference crop evapotranspiration and crop coefficient Hydrological modeling studies have been carried out to address various issues in the water sector MODFLOW model was successfully applied for groundwater modeling and groundwater recharge estimation Runoff modeling has been carried out to simulate the snowmelt runoff together with the rainfall and sub surface flow contributions for snow fed basins A study has been included which predicts the impact of the land use and land cover on stream flow Various problems in the water sector have been addressed employing hydrological models such as SWAT ArcSWAT and VIC An experimental study has been presented wherein the laboratory performance of rainfall simulator has been evaluated Hydrological modeling studies involving modifications in the curve number methodology for simulation of floods and sediment load have also been presented This book is useful for academicians water practitioners scientists water managers environmentalists and administrators NGOs researchers and students who are involved in water management with the focus on hydrological modeling water management and water governance

Sustainable Water Resources Management Rajib Kumar Bhattacharjya,Bipul Talukdar,Konstantinos L. Katsifarakis,2022-06-17 This book brings high quality selected research articles from the international conference on Sustainable Water Resources Management SWARM 2020 held at Assam Engineering College Guwahati Assam India during 19 21 June 2020 The book focuses on water management and

planning urban water management climate change and global warming management of groundwater and aquifer remediation water conservation water quality pollution control management of trans boundary rivers advanced hydrological modelling and hydro disaster risk management of sustainable water management *Integrating Scale in Remote Sensing and GIS* Dale A. Quattrochi, Elizabeth Wentz, Nina Siu-Ngan Lam, Charles W. Emerson, 2017-01-06 Integrating Scale in Remote Sensing and GIS serves as the most comprehensive documentation of the scientific and methodological advances that have taken place in integrating scale and remote sensing data This work addresses the invariants of scale the ability to change scale measures of the impact of scale scale as a parameter in process models and the implementation of multiscale approaches as methods and techniques for integrating multiple kinds of remote sensing data collected at varying spatial temporal and radiometric scales Researchers instructors and students alike will benefit from a guide that has been pragmatically divided into four thematic groups scale issues and multiple scaling physical scale as applied to natural resources urban scale and human health social scale Teeming with insights that elucidate the significance of scale as a foundation for geographic analysis this book is a vital resource to those seriously involved in the field of GIScience

Supervised Learning in Remote Sensing and Geospatial Science Aaron E Maxwell, Christopher Ramezan, Yaqian He, 2025-10-01 Supervised Learning in Remote Sensing and Geospatial Science is an invaluable resource focusing on practical applications of supervised learning in remote sensing and geospatial data science Emphasizing practicality the book delves into creating labeled datasets for training and evaluating models It addresses common challenges like data imbalance and offers methods for assessing model performance This guide bridges the gap between theory and practice providing tools and techniques for extracting actionable information from raw geospatial data The book covers all aspects of supervised learning workflows including preparing diverse remotely sensed and geospatial data inputs It equips researchers practitioners and students with essential knowledge for applied mapping and modeling tasks making it an indispensable reference for advancing geospatial science Provides a practical handbook for implementing supervised machine learning techniques to geospatial data with step by step methodologies and case studies Discusses the full spectrum of machine and deep learning methods for classification and regression tasks Focuses on applied implementation common issues pitfalls and best practices providing practical considerations on dealing with these problems **Ecology of Himalayan Treeline**

Ecotone S P Singh, Zafar Ahmad Reshi, Rajesh Joshi, 2023-02-21 This book brings together comprehensive multi disciplinary knowledge on diverse aspects of the Himalayan treeline ecotone which is considered one of the most sensitive ecosystems to climate change The contents of this book are based on the results of extensive research and provide a holistic understanding of the treeline ecotone in Himalaya The book will serve as an important reference manual and a textbook on treeline ecology The book is unique in the sense that it provides an engaging account of almost all the aspects of the treeline ecotone such as taxonomic functional and phylogenetic species diversity temperature lapse rates tree phenology water relations and stress

physiology tree ring width chronology and climate relationships and the role of treeline ecotone in human sustenance in the Indian Himalayan region The treelines in the Himalaya being the highest in the Northern Hemisphere up to 4900 m are among the least investigated systems and hence this book is timely and fills all important knowledge gaps vis vis treeline shifts physiognomic structural and functional changes in mountain landscapes and ecosystems particularly under the changing climate This book for the first time summarizes evidence based knowledge about various aspects of treeline ecotone in Himalaya that was largely generated through a well coordinated a team science approach The book will be of interest to ecologists climatologists dendrochronologists foresters plant physiologists and resource managers and policy planners for a better understanding of the organization and dynamics of this fragile ecosystem in relation to climate change and other anthropogenic stresses that are rampant in the Himalaya The book lays a solid foundation for further investigation of the ecology and dynamics of the treeline ecotone in the Himalayas and provides a rationale for pursuing a team science approach for macroecological investigations Desertification and Rehabilitation Xian Xue,Atsushi Tsunekawa,Caroline King-Okumu,2022-08-05 GIS World Sourcebook 1995 [Anonymus AC01149836],1994
