*Nikon Creative Lighting System Digital Field Guide* J. Dennis Thomas, 2009-10-01 A full color go anywhere guide to Nikon's entire array of creative lighting possibilities Nikon's Creative Lighting System is like having a low cost wireless studio lighting system that's portable enough to fit into a camera bag Although the possibilities are endless and exciting setting up synchronizing the equipment and determining lighting ratios can be a bit overwhelming Luckily this Digital Field Guide has been completely updated to shed some light on the situation Beginning with the basic functions of the Nikon SB 900 the SB 800 and the SB 600 the author then goes on to demystify the complexities of using multiple speedlights adjusting flash outputs and setting up a wireless studio Clearly explains how to get the best results when using multiple speedlights Includes examples and unique advice on how to light specific subjects such as weddings wildlife portraits product shots and corporate locations Covers other Creative Lighting System components such as Nikon's wireless commander and macro speedlights With this handy on the go guide you'll no longer be in the dark on Nikon's Creative Lighting System

**Nikon Creative Lighting System Digital Field Guide** Benjamin Edwards, 2012-02-15 Detailed coverage of the three high end speedlights built exclusively for new Nikon SLRs Nikon speedlights put creative control of flash at the photographer's command and with Nikon's Creative Lighting System flash control is practically intuitive and possibilities are seemingly endless However setting up synchronizing the equipment and determining lighting ratios can be a daunting task This new edition of a bestseller puts your mind at ease in a flash Award winning photographer Benjamin Edwards begins with the basics and demystifies the complexities of using multiple speedlights adjusting flash outputs and setting up a wireless studio in an understandable approachable way Teaches you how to fill in shadows reveal detail and add a sense of motion or visual effects to your images all with automatic ease and total wireless control Includes coverage of other Creative Lighting System components such as Nikon's wireless commander and macro speedlights Explores the basic functions of the SB 910 continues with the SB 700 and the similar but less expensive SB 600 Boasts unique detailed advice on lighting specific subjects weddings pets product shots corporate locations portraits large groups sports and much more While the Nikon Creative Lighting System speedlights are like having a low cost wireless studio lighting system that's portable enough to fit in a camera bag this invaluable guide does fit in your camera bag and goes where you go to help you take control of this amazing lighting system

Direction & Quality of Light Neil van Niekerk, 2013-03-04 Providing readers with a study of learning how to turn poorly lit images into finely crafted masterfully lit photographs this guidebook instills photographers with the self confidence to think on their feet and photograph any portrait subject anywhere Acclaimed photographer Neil van Niekerk presents seven distinctly different lighting scenarios available light exposure metering a touch of flash bounced on camera flash off camera flash video light and hard sunlight to show readers how to manipulate the direction and quality of light the subject's and photographer's position and numerous other variables so as to turn a bad image into a stunning professional level portrait Packed with dozens of

instructional full color photos this work also features 10 sample photo sessions allowing readers the opportunity to see the seven lighting scenarios put to practice

**On-Camera Flash**, 2015-10-19 Photographers are always looking for perfect light Unfortunately the quality of available light and the situations in which photos are created are rarely perfect This is especially true when photographing weddings or portraits on location So while finding beautiful existing light is every photographer's ideal it isn't always possible This is the point at which photographers tend to reach for a portable on camera flash Indeed these intense light sources can prove invaluable but only if you know how to use them effectively In the hands of an inexperienced photographer on camera flash will produce images that look flat and lifeless images with harsh shadows washed out skin tones cavernous black backgrounds and other unappealing visual characteristics In this book acclaimed wedding and portrait photographer Neil van Niekerk shows you how to avoid the pitfalls photographers new to speedlights often encounter so that you can produce professional images using on camera flash You'll learn to use simple accessories to manipulate the quality of light from your flash and how to improve a lighting scenario by enhancing rather than overwhelming the existing light When the available light is too low and too uneven to be combined with flash he shows you how to override it completely with flash and with some thought and careful application of specialized techniques still get results that look great On camera flash is one of the most challenging light sources to master but with the techniques in this book you'll learn to use it with confidence For wedding and environmental portrait photographers who must work in ever changing lighting scenarios this can mean better images and better sales
