Using your cleaner

Place your foot on the foot pedal and depress the pedal whilst pulling back the handle into the normal working position. The brushes will automatically come into contact with the floor. Switch on.
For cleaning under furniture continue the downward movement of the handle with the foot pedal depressed.
Your cleaner is designed to be used on carpets and hard floors - push it gently where you want to clean, and pull gently back.

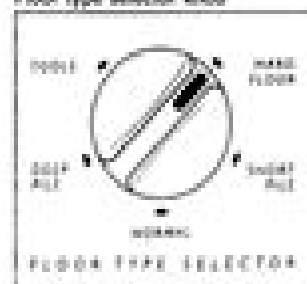

The controls

On/Off switch

Press the On/Off switch to start and stop the cleaner.

Floor type selector knob

1. Stand the cleaner in the parked (upright) position.
2. Tip the base off of the floor.
3. Rotate the floor type selector knob to the correct setting for your carpet.
4. Replace base onto the floor and place cleaner in the normal operating position to obtain new height setting.
Note - the base will not move up or down when rotating the selector knob!
5. For fringed-edged loose carpets, operate the cleaner in the direction of the fringe from the carpet.
6. To use the accessory tools, set the selector knob to "TOOLS".

WARNING

The brush in the cleaning head rotates at high speed and can cause damage to the mains supply cable if the cleaner passes over it during cleaning operations.

Care should be taken to ensure that this does not happen.

If the cleaning head has accidentally passed over the mains supply cable the following action should be taken:

1. Switch off and remove the plug from the socket outlet.
2. Examine the mains supply cable for damage (only after removing the plug from the socket outlet).
3. If there is any sign of damage to the supply cable it **MUST** be removed, we recommend that this be carried out by Electrical Service Staff.
4. **NEVER** use the machine with a damaged mains supply cable.
