The Oxford History of Classical Reception in English Literature David Hopkins, Charles Martindale, Norman Vance, Rita Copeland, Patrick Cheney, Philip R. Hardie, Jennifer Wallace, 2012 The Oxford History of Classical Reception OHCREL is designed to offer a comprehensive investigation of the numerous and diverse ways in which literary texts of the classical world have stimulated responses and refashioning by English writers Covering the full range of English literature from the early Middle Ages to the present day OHCREL both synthesizes existing scholarship and presents cutting edge new research employing an international team of expert contributors for each of the five volumes OHCREL endeavours to interrogate rather than inertly reiterate conventional assumptions about literary periods the processes of canon formation and the relations between literary and non literary discourse It conceives of reception as a complex process of dialogic exchange and rather than offering large cultural generalizations it engages in close critical analysis of literary texts It explores in detail the ways in which English writers' engagement with classical literature casts as much light on the classical originals as it does on the English writers' own cultural context This second volume and third to appear in the series covers the years 1558-1660 and explores the reception of the ancient genres and authors in English Renaissance literature engaging with the major and many of the minor writers of the period including Shakespeare Marlowe Spenser and Jonson Separate chapters examine the Renaissance institutions and contexts which shape the reception of antiquity and an annotated bibliography provides substantial material for further reading

Just and Unjust Military Intervention Stefano Recchia, Jennifer M. Welsh, 2013-09-26 Classical arguments about the legitimate use of force have profoundly shaped the norms and institutions of contemporary international society But what specific lessons can we learn from the classical European philosophers and jurists when thinking about humanitarian intervention preventive self defense or international trusteeship today The contributors to this volume take seriously the admonition of contextualist scholars not to uproot classical thinkers' arguments from their social political and intellectual environment Nevertheless this collection

demonstrates that contemporary students scholars and policymakers can still learn a great deal from the questions raised by classical European thinkers the problems they highlighted and even the problematic character of some of the solutions they offered The aim of this volume is to open up current assumptions about military intervention and to explore the possibility of reconceptualizing and reappraising contemporary approaches *Survey of Modern Fantasy Literature* Frank Northen Magill,1983 **Melanistic Magazine Volume 17** Karen Richards,Taneya Rogers,Terence Ngazimbi,Nigel Williams,Kyle Smith,2024-07-08 Volume 17 of Melanistic Magazine is focused on Black Entrepreneurs highlighting the hard work and perseverance of businesses in the community **Contemplation and Freedom** Benedict R.
