Designed for historical accuracy in consultation with historian Susan Wise Bauer, these lesson plans, designed to accompany the weekly lessons laid out in *Telling God's Story Year Three*, provide enough additional activities to fill out an entire week of home school or private school study. However, what of disability in the past? *The Medieval Disability Sourcebook: Western Europe* explores what medieval texts have to say about disability both in their own time and for the present. This interdisciplinary volume on medieval Europe combines

historical records medical texts and religious accounts of saints lives and miracles as well as poetry prose drama and manuscript images to demonstrate the varied and complicated attitudes medieval societies had about disability Far from recording any monolithic understanding of disability in the Middle Ages these contributions present a striking range of voices to from and about those with disabilities and such diversity only confirms how disability permeated and permeates every aspect of life The Medieval Disability Sourcebook is designed for use inside the undergraduate or graduate classroom or by scholars interested in learning more about medieval Europe as it intersects with the field of disability studies Most texts are presented in modern English though some are preserved in Middle English and many are given in side by side translations for greater study Each entry is prefaced with an academic introduction to disability within the text as well as a bibliography for further study This sourcebook is the first in a proposed series focusing on disability in a wide range of premodern cultures histories and geographies **Catalog of Copyright Entries.
