Interactive School Science 10 , Organic Mushroom Farming and Mycoremediation Tradd Cotter,2014-08-11 What would it take to grow mushrooms in space How can mushroom cultivation help us manage or at least make use of invasive species such as kudzu and water hyacinth and thereby reduce dependence on herbicides Is it possible to develop a low cost and easy to implement mushroom growing kit that would provide high quality edible protein and bioremediation in the wake of a natural disaster How can we advance our understanding of morel cultivation so that growers stand a better chance of success For more than twenty years mycology expert Tradd Cotter has been pondering these questions and conducting trials in search of the answers In Organic Mushroom Farming and Mycoremediation Cotter not only offers readers an in depth exploration of best organic mushroom cultivation practices he shares the results of his groundbreaking research and offers myriad ways to apply your cultivation skills and further incorporate mushrooms into your life whether your goal is to help your community clean up industrial pollution or simply to settle down at the end of the day with a cold Reishi infused homebrew ale The book first guides readers through an in depth exploration of indoor and outdoor cultivation Covered skills range from integrating wood chip beds spawned with king stropharia into your garden and building a trenched raft of hardwood logs plugged with shiitake spawn to producing oysters indoors on spent coffee grounds in a 4x4 space or on pasteurized sawdust in vertical plastic columns For those who aspire to the self sufficiency gained by generating and expanding spawn rather than purchasing it Cotter offers in depth coverage of lab techniques including low cost alternatives that make use of existing infrastructure and materials Cotter also reports his groundbreaking research cultivating morels both indoors and out training mycelium to respond to specific contaminants and perpetuating spawn on cardboard without the use of electricity Readers will discover information on making tinctures powders and mushroom infused honey making an antibacterial mushroom cutting board and growing mushrooms on your old denim jeans Geared toward readers who want to grow mushrooms without the use of pesticides Cotter takes organic one step further by introducing an entirely new way of thinking one that looks at the potential to grow mushrooms on just about anything just about anywhere and by anyone Provided by publisher **Exercises for the Botany Laboratory** Joel A. Voynich Manuscript In the second installment of this 4 volume set we present the semantic classification system that preceded the first complete but approximate translation of the entire manuscript This contrasts with the piecemeal approach of all prior solutions that resulted in wildly diverent translations of minuscule selections of the text This systemic attack on the entirety of the text and its unusual distributional features such as extreme platykurtia which forbid translation into any natural language resulted first in superior transcription stability and an equally stable symbol set based on intensive statistical analysis The encoding scheme employs a 20 22 letter alphabetic script that most closely resembles a slot and filler top down a priori pasigraphic system with oligo agglutinative features that are currently only considered a theoretical possibility in the linguistics field The intricate affixing system is based mainly on precise placement of single letters to denote case roles semantic classes and 3 primary parts of speech exhibiting a strong noun surfeit At the phrase level we find dominant SOV order and head final dependent marked grammar compatible with heavily formatted inline pharmaceutical lists these result in short ranges of actionable information which no competing solution can claim Plant descriptions are demoted in comparison to other herbals in favor of processing and dispensing details This approximate solution is based on fuzzy set analysis techniques integrated with linguistic universals a wide range of common statistics Pareto and Sukhotin scores Zipf slopes Indexes of Coincidence Agglutination and Synthesis and dozens of others and many home brewed fuzzy algorithms implemented in T SQL and VB Net after the inadequacy of many advanced data mining techniques was demonstrated Our methodology was validated when the project reached an inflection point beyond which we were able to predict the identities and properties of plants based on the text alone The project ended with plausible identification candidates for 121 of 126 herbal section plants and 7 others elsewhere in the manuscript far beyond that of other published solutions An incredible 100% of the 133 identified plants have dermatological uses These can be divided into prominent subtopics like treatment of bites anthelmintics rheumatism and other musculo skeletal ailments inflammatory skin disorders external and possibly menstrual bleeding excision of blemishes application of cosmetics and cures dispensable in baths The centerpiece of the manuscript is the Rosette Folio which depicts the grand design of a medieval bathhouse keyed to specific astrological timings also defined by satellite diagrams following a precedence hierarchy Each of these uses exhibit telltale polygraph correlations that fall into a handful of semantic hierarchies constructed from highly similar bases such as skin color based diagnostic criteria remedies solutions problems diseases plant parts and the like These findings require 2 volumes to demonstrate and another volume of data and other supplementary material Despite this complexity they culminate in a drastic simplification of the script and the first ever comprehensive translation of the Voynich Manuscript in Volume IV albeit at low resolution The first installment dedicated to linguistic analysis of the affixing system will be published concurrently with Vol II at which time the reference material in Vol III Dictionary Figures Tables and Other Supplementary Material will be made publicly available for free at the GitHub address https github com InfinidataLLC Infinidata Voynich
