Lifetimes True Accounts Of Reincarnation:

Lifetimes Frederick Lenz,1986 A person you ve never met before seems strangely familiar You seem to have intense memories of a place you ve never been You have an experience you know is new but it feels as if it s happened before For many people reincarnation is a reality In this stunning and unusual book Frederick Lenz brings together men and women from all walks of life who vividly and with great conviction describe experiences and relationships from previous LIFETIMES

Signs of Reincarnation James G. Matlock,2019-06-15 Signs of Reincarnation provides the first comprehensive look at the belief in reincarnation and the evidence for past lives from historical records anthropological studies and contemporary research Matlock discusses various ways the evidence may be interpreted and shows that although reincarnation entails a rejection of the materialist notion that consciousness is generated by the brain it does not require the acceptance of any radically new concepts or the abandonment of well established findings in mainstream psychology or biology This book offers students scholars and anyone interested in the possibility of reincarnation an essential grounding in beliefs cases and theory while opening doors for future research into the extension of consciousness beyond our present lives **Remarkable**

Healings Shakuntala Modi,1998-04-01 Psychiatry remains an emerging discipline Many people suffer from ailments that have no apparent cause no obvious cure Quite by accident while using hypnotherapy Dr Modi discovered that pastlife regression can be a beneficial treatment Many of these patients under hypnosis claimed to have spirits attached to their bodies and energy fields creating psychological and physical problems Based on years of experience Dr Modi describes techniques that release these spirits revealing how patients can sometimes recover within a few sessions While most doctors would agree that emotional states affect our health few would give credence to spiritual influences In this truly groundbreaking book Dr Modi presents evidence that something beyond the physical affects the health of many people and urges medical scientists to objectively assess this revolutionary approach to mental and often physical illness Pioneers have the courage to put aside the status quo and evaluate what the evidence shows even if it defies the prevailing logic of the time Both physicians and the general public should explore the pioneering work of Dr Modiwork which no doubt has produced many remarkable healings
