No More Theories Please! L. K. Masao, 2009 No More Theories Please is a classroom management guide for current and prospective elementary classroom teachers Unlike many other education texts this book does not speak in theoretical terms Rather it provides a how to guide that clearly defines each strategy and procedure Masao discusses the 3 Rs of management routines rules and reinforcement as well as behavior management plans and organizations The book is divided into three parts organization routines rules and reinforcement and classroom behavior management systems Each part has three or four chapters and provides tangible and pragmatic steps that can be taken to create the desired structured environment Some chapters provide templates for management systems that the author created and implemented successfully in her own classroom From publisher's description *Teaching Mathematics to All Children* Benny F.

Tucker, Ann H. Singleton, Terry L. Weaver, 2006 With the composition of today's classroom in mind this book approaches teaching and planning elementary mathematics by using methods that accommodate the diverse learning needs of any student having difficulties with basic math concepts The authors use personal experience and research that supports a complete set of developmental concepts and skills to outline the effective development of mathematical concepts and skills It stresses lesson planning that will result in learning understanding and retaining important concepts and skills K 12 Special Education and General Education Teachers **Visual Aids in Primary Grade Arithmetic for Deaf Children** California
