## **Mc Cain Election Funding Report:**

**Who Donates in Campaigns?** David B. Magleby, Jay Goodliffe, Joseph A. Olsen, 2018-10-25 While much is known about who votes in American elections much less is known about who donates In this book the authors utilize a unique and historically unprecedented data set of donors from the 2008 and 2012 presidential elections to answer longstanding questions what is the relationship between donors and candidates How do candidates attract and respond to contributors How do campaign strategies reflect changing campaign finance laws and the development of the internet With unprecedented cooperation from the Obama McCain and Romney campaigns the authors investigate presidential campaign donors at all giving levels to produce the most systematic and complete analysis of donors to presidential nominees to date As elections are decided increasingly by donors dollars Who Donates to Campaigns provides relevant research on the broader trends in partisan polarization and more generally on how campaigns can engage more citizens in political participation

United States Congressional Serial Set, Serial No. 14725, House Reports Nos. 131-152 , **Strategy, Money and Technology in the 2008 Presidential Election** Costas Panagopoulos, 2014-06-11 The 2008 presidential election perhaps more so than the typical quadrennial race will undoubtedly spawn an abundance of scholarly inquiry The confluence of historic and peculiar features associated with the 2008 contest distinguishes it from modern campaign cycles in significant ways that provide researchers a rare opportunity to reflect on a plethora of topics These studies are certain to provide detailed knowledge about the 2008 election in particular and more generally to inform our understanding of contemporary electoral politics The selections in this volume probe specific facets of the 2008 contest to provide in depth analyses of key

developments with respect to strategy money and technology in the election cycle The contributors are keen analysts of American elections and campaigns The insights they provide grapple with key questions about the 2008 election and help to demystify aspects of the historic race This book was published as a special issue of the Journal of Political Marketing

*Missed Opportunity* E. D. Dover, 2002-03-30 While the 2000 presidential election had a number of unique features including the decisive role of the Supreme Court it actually was quite similar to three earlier television age campaigns For the fourth time since 1960 an incumbent president retired and his party nominated the vice president as a potential successor The nomination of the vice president has become so commonplace that we now expect it Unfortunately we lack theoretical explanations of why vice presidents win nominations while often losing the general election Dover seeks to advance this needed theory Dover looks at the recurring features of television age elections with surrogate incumbents and applies them to a description of the leading events of Election 2000 The emphasis is on mediated incumbency a phenomenon that occurs when mass media particularly television exert enormous influence in defining the context and meaning of politics for most voters The first topics considered are the growth of the modern vice presidency and the nature of surrogate incumbent elections The outcome of such elections often turns on how effectively the vice president and his opponent overcome dilemmas unique to their strategic positions as incumbent or challenger Dover then describes the campaign from January 1999 through December 2000 from the perspective of television news media and shows how Gore failed to overcome his dilemma during a time marked by peace and prosperity The text is an important resource for scholars students and other researchers involved with American elections political communication and the American presidency

**Election Administration Reports**, 2002 **Annual Reports of the Various Office & Standing Committees** Allegheny (Pittsburgh, Pa.), 1882 Campaign Financing in the United States August V. Anschutz, 2002 Critics often call campaign

finance the rotten apple of America's version of democracy Politicians retort that the system makes them do it One can't get elected without massive spending on television and image consultants image is after all what is being sold on television at the expense of substance and this spending equals big money The folks willing to part with said big money will only do so in exchange for something i.e. specific campaign or industry tax breaks effective control of foreign policy in certain parts of the world future direct access to the candidate and multitudinous other forms of gift reciprocation This book examines some of the laws which primarily serve as interesting but far from insurmountable hurdles for present and future lawmakers and some of the serious issues concerning a major problem whose solution is scheduled to arrive concurrently with the appearance of igloos at the equator

**The Particularistic President** Douglas L. Kriner, Andrew Reeves, 2015 As the holders of the only office elected by the entire nation presidents have long claimed to be sole stewards of the interests of all Americans Scholars have largely agreed positing the president as an important counterbalance to the parochial impulses of members of Congress This supposed fact is often invoked in arguments for concentrating greater power in the executive

branch Douglas L Kriner and Andrew Reeves challenge this notion and through an examination of a diverse range of policies from disaster declarations to base closings to the allocation of federal spending show that presidents like members of Congress are particularistic Presidents routinely pursue policies that allocate federal resources in a way that disproportionately benefits their more narrow partisan and electoral constituencies Though presidents publicly don the mantle of a national representative in reality they are particularistic politicians who prioritize the needs of certain constituents over others
