A Footprint in Time Brian D. Everett, 2018-12-30 This is an encapsulation of one person's travel through time not necessarily meaningful in its portrayal or its outcomes but in its own small way leaving an imprint in the sands of time It is a personal record of one who has lived through and in some small way participated in a few of the events that have shaped our history It also encapsulates events that embrace family friends and acquaintances At the same time it touches on those events and locations that have also had both major and minor impacts on the world stage in an age in which we have witnessed incredible changes in technology across a wide area of human endeavours Developments that have seen man leave his own environment for the first time to venture into the space that lies beyond something that our predecessors could never have dreamed possible Changes that have also brought economic and social improvements and yet have not resolved the issues of human conflict or our responsibilities as custodians of the planet
