

my SECRET SELF

A STORY OF TRANSGENDER CHILDREN

My Secret Self

Camilla Rothe

My Secret Self:

Magic, Witchcraft and the Otherworld Susan Greenwood, 2020-08-02 Anthropology's long and complex relationship to magic has been strongly influenced by western science and notions of rationality. This book takes a refreshing new look at modern magic as practised by contemporary Pagans in Britain. It focuses on what Pagans see as the essence of magic: a communication with an otherworldly reality. Examining issues of identity, gender and morality, the author argues that the otherworld forms a central defining characteristic of magical practice. Integrating an experiential ethnographic approach with an analysis of magic, this book asks penetrating questions about the nature of otherworldly knowledge and argues that our scientific frameworks need re-envisioning. It is unique in providing an insider's view of how magic is practised in contemporary western culture.

That Fall Paul Genega, 2001 This is the fourth collection from this award-winning poet and his second title from the Irish publisher Salmon. The fall of the title is really many falls. It is the season of course but also the runway approach of an airplane, the setting of the sun, the steady beat of rain, the fall from innocence, from health, from grace. Here too is the plunge of the Coney Island parachute ride, pratfall down steep stairs, descent into silence, madness and sleep. These fifty-six poems display an extraordinary range of texture, tone and subject matter, from passionate poems about childhood and AIDS to sardonic surreal snapshots of our times.

Jacques Derrida's Ghost David Appelbaum, 2009-07-01 A spirited reading of Derrida's view of ethics as transcendental and performative.

The Long Space Peter Hitchcock, 2009-12-01 The resurgence of world literature as a category of study seems to coincide with what we understand as globalization, but how does postcolonial writing fit into this picture? Beyond the content of this novel or that, what elements of postcolonial fiction might challenge the assumption that its main aim is to circulate native information globally? The Long Space provides a fresh look at the importance of postcolonial writing by examining how it articulates history and place both in content and form. Not only does it offer a new theoretical model for understanding decolonization's impact on duration in writing, but through a series of case studies of Guyanese, Somali, Indonesian and Algerian writers, it urges a more protracted engagement with time and space in postcolonial narrative. Although each writer—Wilson Harris, Nuruddin Farah, Pramodya Ananta Toer and Assia Djebar—explores a unique understanding of postcoloniality, each also makes a more general assertion about the difference of time and space in decolonization. Taken together, they herald a transnationalism beyond the contaminated coordinates of globalization as currently construed.

Writing Apache Modules with Perl and C Lincoln Stein, Doug MacEachern, 1999 Apache is the most popular web server on the Internet because it is free, reliable and extensible. The availability of the source code and the modular design of Apache makes it possible to extend web server functionality through the Apache API. For the most part, however, the Apache API has only been available to C programmers and requires rebuilding the Apache server from source. `mod_perl`, the popular Apache module used primarily for enhanced CGI performance, changed all that by making the Apache API available to Perl programmers. With `mod_perl` it becomes simple

to develop Apache modules with Perl and install them without having to rebuild the web server Writing Apache Modules with Perl and C shows how to extend web server capabilities regardless of whether the programming language is Perl or C The book explains the design of Apache mod_perl and the Apache API It then demonstrates how to use them to perform for tasks like the following Rewriting CGI scripts as Apache modules to vastly improve performance Server side filtering of HTML documents to embed special markup or code much like SSI Enhancing server log functionality Converting file formats on the fly Implementing dynamic navigation bars Incorporating database access into CGI scripts Customizing access control and authorization to block robots or to use an external database for passwords The authors are Lincoln Stein and Doug MacEachern Lincoln is the successful author of How to Set Up and Maintain a World Wide web Site and the developer of the widely used Perl CGI pm module Doug is a consultant and the creator of the innovative mod_perl Apache module

Secrecy and Disclosure in Victorian Fiction Leila Silvana May, 2016-07-15 Why were the Victorians more fascinated with secrecy than people of other periods What is the function of secrets in Victorian fiction and in the society depicted how does it differ from that of other periods and how did readers of Victorian fiction respond to the secrecy they encountered These are some of the questions Leila May poses in her study of the dynamics of secrecy and disclosure in fiction from Queen Victoria's coronation to the century's end May argues that the works of writers such as Charlotte Brontë William Makepeace Thackeray Mary Elizabeth Braddon Edward Bulwer Lytton and Arthur Conan Doyle reflect a distinctly Victorian obsession with the veiling and unveiling of information She argues that there are two opposing vectors in Victorian culture concerning secrecy and subjectivity one presupposing a form of radical Cartesian selfhood always remaining a secret to other selves and another showing that nothing can be hidden from the trained eye May calls the relation between these clashing tendencies the dialectics of secrecy and disclosure May's theories of secrecy and disclosure are informed by the work of twentieth century social scientists She emphasizes Georg Simmel's thesis that sociality and subjectivity are impossible without secrecy and Erving Goffman's claim that sociality can be understood in terms of performativity the presentation of the self in everyday life and his revelation that performance always involves disguise hence secrecy May's study offers convincing evidence that secrecy and duplicity in contrast to the Victorian period's emphasis on honesty and earnestness emerged in response to the social pressures of class gender monarchy and empire and were key factors in producing both the subjectivity and the sociality that we now recognize as Victorian

Regard for the Other E. S. Burt, 2009 This work focuses on autothanatography the writing of one's death The study also argues that autobiography is aporetic not or not only a matter of a subject strategizing with language to produce an exemplary identity but a matter also of its responding to an exorbitant call to its death
