## Earth from above

Welcome to the Space Flight Simulator, where the latest computer technology will allow you to travel in a virtual Lunar Space Shuttle. Today, we are making a virtual short trip to the Moon and back. Before we take off, please listen carefully to the safety announcement.

Please sit in your seats and put on the safety belts ready for take-off. No smoking is allowed inside the ship. Space flight is dangerous, so please do not stand or move about during the flight. Our robot flight attendants will bring you snacks and drinks during the flight. In an emergency, please remain in your seats. The robot flight attendants will tell you what to do.

Our flight today will take 30 minutes and we will make one orbit of the Moon before returning to Earth. From your window, you will see the exact place where Neil Armstrong landed on the Moon in 1969. As we fly over the Moon's surface, we will fly past the Mir Space Station. We will land here for a short period of time, while we collect a new robot flight attendant. Please don't get out of your seats or leave the ship during this time.

On our return journey, you will have a perfect view of the Earth. It is a beautiful sight and one you will never forget. Your captain will describe the sights and tell you interesting space facts throughout your journey. If you want to ask any questions please ask one of the robot flight attendants who will be happy to help you.

materials included in this book were selected by panels of teachers and scientists using evaluation criteria developed for the guide. The criteria reflect and incorporate goals and principles of the National Science Education Standards. The annotations designate the specific content standards on which these curriculum pieces focus. In addition to the curriculum chapters, the guide contains six chapters of diverse resources that are directly relevant to middle school science. Among these is a chapter on educational software and multimedia programs; chapters on books about science and teaching; directories and guides to science trade books and periodicals for teachers and students; Another section features institutional resources. One chapter lists about 600 science centers, museums, and zoos where teachers can take middle school students for interactive science experiences. Another chapter describes nearly 140 professional associations and U.S. government agencies that offer resources and assistance. Authoritative, extensive, and thoroughly indexed, and the only guide of its kind, *Resources for Teaching Middle School Science* will be the most used book on the shelf for science teachers, school administrators, teacher trainers, science curriculum specialists, advocates of hands-on science teaching, and concerned parents.
