Le Roi – Soleil Byzantin: L'Orthodoxie comme instrument politique et juridique sous Manuel I Comnène (1143-1180)

Evangelos Stavropoulos, 2026-01-08 The Komnenian era was marked by an ultra conservative political programme that reinforced imperial authority through Orthodox theology and Roman Byzantine legal traditions Under Manuel I Komnenos imperial propaganda employed a highly sacerdotal vocabulary to portray the emperor as a divinely sanctioned ruler This study examines how rhetoric mediated between law and society framing sacral imperial imagery as a component of Byzantine public law and constitutional culture It argues that Orthodoxy functioned not merely as a religious doctrine but as a calculated tool of imperial propaganda and legitimacy within the broader framework of Byzantine political and legal ideology

Genre et fondamentalismes/Gender and Fundamentalisms Fatou Sow, 2018-09-26 When why and how can religion and culture be both sources and places of expression for fundamentalisms particularly in relation to politics Those are the central questions asked throughout this book alongside a discussion on the result when religion strengthened by culture is used as a political tool to access moral and social power Cultural and religious messages often form the basis of decisions laws and programs made in politics and have a direct effect on society in general and on women and gender relations in particular The various forms taken by fundamentalisms in some African countries and the contexts under which they have emerged the ways in which they re shape identities and relationships between men and women are also analysed in this book These fundamentalisms are frequently sources of concern in social debates in feminist and feminine organizations as well as in academia and politics The manipulation of cultures and religions are becoming progressively political and consequently can cause social discrimination or even physical moral and symbolic violence Les Annales politiques et littéraires , 1909
