## **Life Orientation Memorandum Grades November 2014:**

Nostalgia after Apartheid Amber R. Reed, 2020-11-30 In this engaging book Amber Reed provides a new perspective on South Africa's democracy by exploring Black residents' nostalgia for life during apartheid in the rural Eastern Cape. Reed looks at a surprising phenomenon encountered in the post-apartheid nation despite the Department of Education mandating curricula meant to teach values of civic responsibility and liberal democracy: those who are actually responsible for teaching this material and the students taking it often resist what they see as the imposition of white values. These teachers and students do not see South African democracy as a type of freedom but rather as destructive of their own African culture, whereas apartheid at least ostensibly allowed for cultural expression in the former rural homelands. In the Eastern Cape, Reed observes, resistance to democracy occurs alongside nostalgia for apartheid among the very citizens who were most disenfranchised by the late racist authoritarian regime. Examining a rural town in the former Transkei homeland and the urban offices of the Sonke Gender Justice Network in Cape Town, Reed argues that nostalgic memories of a time when African culture was not under attack combined with the socioeconomic failures of the post-apartheid state set the stage for the current political ambivalence in South Africa. Beyond simply being a case study, however, *Nostalgia after Apartheid* shows how, in a global context in which nationalism and authoritarianism continue to rise, the threat posed to democracy in South Africa has far wider implications for thinking about enactments of democracy. *Nostalgia after Apartheid* offers a unique approach to understanding how the attempted post-apartheid reforms have failed rural Black South Africans and how this failure has led to a nostalgia for the very conditions that once oppressed them. It will interest scholars of African studies, postcolonial studies, anthropology, and education as well as general readers interested in South African history and politics.

Outclassed Joan C. Williams, 2025-05-20 An eye-opening, urgent call to mend the broken relationship between college and non-college grads of all races that is driving politics to the far right in the US. Is there a single change that could simultaneously protect democracy, spur progress on climate change, enact sane gun policies, and improve our response to the next pandemic? Yes, changing the class dynamics driving American politics. The far right manipulates class anger to undercut progressive goals, and liberals often inadvertently play into their hands. In *Outclassed*, Joan C. Williams explains how to reverse that process by bridging the diploma divide while maintaining core progressive values. She offers college-educated Americans insights into how their values reflect their lives and their lives reflect their privilege. With illuminating stories from the Portuguese admiral who led that country's COVID response to the lawyer who led the ACLU's gay marriage response and more, Williams demonstrates how working-class values reflect working-class lives. Then she explains how the far right connects culturally with the working class, deftly manipulating racism and masculine anxieties to deflect attention from the ways far-right policies produce the economic conditions disadvantaging the working class. Whether you are a concerned citizen committed to saving democracy or a politician or social justice warrior in need of messaging advice, *Outclassed* offers

concrete guidance on how liberals can forge a multi racial cross class coalition capable of delivering on progressive goals
