Bringing the Common Core Math Standards to Life Yvelyne Germain-McCarthy, Ivan Gill, 2014-11-20 As high school math teachers shift to the Common Core State Standards the question remains What do the standards actually look like in the classroom This book answers that question by taking you inside of real Common Core classrooms across the country You ll see how exemplary teachers are meeting the new requirements and engaging students in math Through these detailed examples of effective instruction you will uncover how to bring the standards to life in your own classroom Special Features A clear explanation of the big shifts happening in the classroom as a result of the Common Core State Standards Real examples of how exemplary teachers are using engaging strategies and tasks to teach algebra geometry trigonometry statistics mathematics across the curriculum and more A detailed analysis of each example to help you understand why it is effective and how you can try it with your own students Practical ready to use tools you can take back to your classroom including unit plans and classroom handouts

Future Earth Diana Dalbotten, Gillian Roehrig, Patrick Hamilton, 2014-06-23 Earth now is dominated by both biogeophysical and anthropogenic processes as represented in these two images from a simulation of aerosols Dust red from the Sahara sweeps west across the Atlantic Ocean Sea salt blue rises into the atmosphere from winds over the North Atlantic and from a tropical

cyclone in the Indian Ocean Organic and black carbon green from biomass burning is notable over the Amazon and Southeast Asia Plumes of sulfate white from fossil fuel burning are particularly prominent over northeastern North America and East Asia If present trends of dust emissions and fossil fuel burning continues in what we call the Anthropocene epoch then we could experience high atmospheric CO₂ levels leading to unusual warming rarely experienced in Earth's history This book focuses on human influences on land ocean and the atmosphere to determine if human activities are operating within or beyond the safe zones of our planet's biological chemical and physical systems Volume highlights include Assessment of civic understanding of Earth and its future Understanding the role of undergraduate geoscience research and community driven research on the Anthropocene Effective communication of science to a broader audience that would include the public the K-12 science community or populations underrepresented in the sciences Public outreach on climate education geoscience alliance and scientific reasoning Future Earth is a valuable practical guide for scientists from all disciplines including geoscientists museum curators science educators and public policy makers

The Schenley Experiment Jake Oresick, 2017-04-14 The Schenley Experiment is the story of Pittsburgh's first public high school a social incubator in a largely segregated city that was highly even improbably successful throughout its 156 year existence Established in 1855 as Central High School and reorganized in 1916 Schenley High School was a model of innovative public education and an ongoing experiment in diversity Its graduates include Andy Warhol actor Bill Nunn and jazz virtuoso Earl Hines and its prestigious academic program and pensions lured such teachers as future Pulitzer Prize winner Willa Cather The subject of investment as well as destructive neglect the school reflects the history of the city of Pittsburgh and provides a study in both the best and worst of urban public education practices there and across the Rust Belt Integrated decades before Brown v Board of Education Schenley succumbed to default segregation during the white flight of the 1970s it rose again to prominence in the late 1980s when parents camped out in six day long lines to enroll their children in visionary superintendent Richard C Wallace's reinvigorated school Although the historic triangular building was a cornerstone of its North Oakland neighborhood and a showpiece for the city of Pittsburgh officials closed the school in 2008 citing over 50 million in necessary renovations a controversial event that captured national attention Schenley alumnus Jake Oresick tells this story through interviews historical documents and hundreds of first person accounts drawn from a community indelibly tied to the school A memorable important work of local and educational history his book is a case study of desegregation magnet education and the changing nature and legacies of America's oldest public schools

Teaching to Change the World Jeannie Oakes, Martin Lipton, Lauren Anderson, Jamy Stillman, 2018-01-29 Teaching to Change the World is an up to the moment engaging social justice oriented introduction to education and teaching and the challenges and opportunities they present Both foundational and practical the chapters are organized around conventional topics but in a way that consistently integrates a coherent story that explains why schools are as they are Taking the position that a hopeful democratic future

depends on ensuring that all students learn the text pays particular attention to inequalities associated with race social class language gender and other social categories and explores teachers role in addressing them This thoroughly revised fifth edition remains a vital introduction to the profession for a new generation of teachers who seek to become purposeful knowledgeable practitioners in our ever changing educational landscape for those teachers who see the potential for education to change the world Features and Updates of the New Edition Fully updated Chapter 1 The U S Schooling Dilemma reflects our current state of education after the 2016 U S presidential election First person observations from teachers including first year teachers continue to offer vivid authentic pictures of what teaching to change the world means and involves Additional coverage of the ongoing effects of Common Core highlights the heated public discourse around teaching and teachers and charter schools Attention to diversity and inclusion is treated as integral to all chapters woven throughout rather than tacked on as separate units Digging Deeper resources on the new companion website include concrete resources that current and future teachers can use in their classrooms Tools for Critique provides instructors and students questions prompts and activities aimed at encouraging classroom discussion and particularly engaging those students least familiar with the central tenets of social justice education

Magic Lantern Art Terry Borton, 2026-01-02 Magic Lantern Art celebrates the life and artistry of cinema pioneer Joseph Boggs Beale 1841 1926 Beale was America s premier artist creating images for magic lantern shows the projected performances that gave birth to the movies His 2 000 lantern illustrations were made into story telling slides that were seen and admired by millions a year Almost single handedly he created American screen entertainment for the generation before the movies pioneering narrative techniques that later appeared on the nation s cinema screens Magic Lantern Art is based on both the author s extensive Beale archive now held by the Lucas Museum of Narrative Art in Los Angeles and on his 25 year career performing more than 1 000 professional lantern shows using Beale s slides Written in an engaging and accessible style and featuring over 500 color pictures the book is a must read for anyone interested in cinema history or American art

The Importance of Being Little Erika Christakis, 2016-02-09 Christakis expertly weaves academic research personal experience and anecdotal evidence into her book a bracing and convincing case that early education has reached a point of crisis her book is a rare thing a serious work of research that also happens to be well written and personal engaging and important Washington Post What kids need from grown ups but aren t getting an impassioned plea for educators and parents to put down the worksheets and flash cards ditch the tired craft projects yes you Thanksgiving Handprint Turkey and exotic vocabulary lessons and double down on one simple word play NPR The New York Times bestseller that provides a bold challenge to the conventional wisdom about early childhood with a pragmatic program to encourage parents and teachers to rethink how and where young children learn best by taking the child s eye view of the learning environment To a four year old watching bulldozers at a construction site or chasing butterflies in flight the world is awash with promise Little children come into the world hardwired to learn in

virtually any setting and about any matter Yet in today's preschool and kindergarten classrooms learning has been reduced to scripted lessons and suspect metrics that too often undervalue a child's intelligence while overtaxing the child's growing brain These mismatched expectations wreak havoc on the family parents fear that if they choose the wrong program their child won't get into the right college But Yale early childhood expert Erika Christakis says our fears are wildly misplaced Our anxiety about preparing and safeguarding our children's future seems to have reached a fever pitch at a time when ironically science gives us more certainty than ever before that young children are exceptionally strong thinkers In her pathbreaking book Christakis explains what it's like to be a young child in America today in a world designed by and for adults where we have confused schooling with learning She offers real life solutions to real life issues with nuance and direction that takes us far beyond the usual prescriptions for fewer tests more play She looks at children's use of language their artistic expressions the way their imaginations grow and how they build deep emotional bonds to stretch the boundaries of their small worlds Rather than clutter their worlds with more and more stuff sometimes the wisest course for us is to learn how to get out of their way Christakis's message is energizing and reassuring young children are inherently powerful and they and their parents will flourish when we learn new ways of restoring the vital early learning environment to one that is best suited to the littlest learners This bold and pragmatic challenge to the conventional wisdom peels back the mystery of childhood revealing a place that's rich with possibility

Eleanor Cameron Paul V. Allen, 2018-02-20 Eleanor Cameron 1912-1996 was an innovative and genre-defying author of children's fiction and children's literature criticism From her beginnings as a librarian Cameron went on to become a prominent and respected voice in children's literature writing one of the most beloved children's science fiction novels of all time *The Wonderful Flight to the Mushroom Planet* and later winning the National Book Award for her time fantasy *The Court of the Stone Children* In addition Eleanor Cameron played an often vocal role in critical debates about children's literature She was one of the first authors to take up literary criticism of children's novels and published two influential books of criticism including *The Green and Burning Tree* One of Cameron's most notable acts of criticism came in 1973 when she wrote a scathing critique of Roald Dahl's *Charlie and the Chocolate Factory* Dahl responded in kind and the result was a fiery imbroglio within the pages of the *Horn Book Magazine* Yet despite her many accomplishments most of Cameron's books went out of print by the end of her life and her star faded This biography aims to reinsert Cameron into the conversation by taking an in-depth look at her tumultuous early life in Ohio and California her unforgettably forceful personality and criticism and her graceful heartfelt novels The biography includes detailed analysis of the creative process behind each of her published works and how Cameron's feminism environmentalism and strong sense of ethics are reflected in and represented by her writings Drawn from over twenty interviews thousands of letters and several unpublished manuscripts in her personal papers Eleanor Cameron is a tour of the most exciting and creative periods of American children's literature through the experience of one of its valiant purveyors and champions *Journal of the*
