educational institutions live up to their cosmopolitan ideals In a cheeky agenda setting and controversial style Van Norden an expert in Chinese philosophy proposes an inclusive multicultural approach to philosophical inquiry He showcases several accessible examples of how Western and Asian thinkers can be brought into productive dialogue demonstrating that philosophy only becomes deeper as it becomes increasingly diverse and pluralistic Taking Back Philosophy is at once a manifesto for multicultural education an accessible introduction to Confucian and Buddhist philosophy a critique of the ethnocentrism and anti intellectualism characteristic of much contemporary American politics a defense of the value of philosophy and a liberal arts education and a call to return to the search for the good life that defined philosophy for Confucius Socrates and the Buddha Building on a popular New York Times opinion piece that suggested any philosophy department that fails to teach non Western philosophy should be renamed a Department of European and American Philosophy this book will challenge any student or scholar of philosophy to reconsider what constitutes the love of wisdom
