Life Science Rhino Poaching Memo:

The Animal Code Danny Crossman, 2011 Illustrates the myriad ways in which humans exploit animals making a compelling case for people to recognise animals needs and feelings In a breakthrough concept The Animal Code sets out a clear guide for how each of us can treat animals with respect and also help our environment Parade of Life, 1993 **AF Press Clips**, 1966-12-28 **Transdex Index**, 1994 An index to translations issued by the United States Joint Publications Research Service JPRS *Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set)* Union of International Associations, 2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events **Operation Lock and the War on Rhino Poaching** John Hanks, 2015-05-08 The aggressive poaching of rhinos needs to be countered with equal aggression So argued Prince Bernhard of the Netherlands the founder president of the World Wide Fund for Nature WWF at a 1987 meeting with John Hanks conservation expert and WWF s head in Africa The result was Operation Lock a secret initiative funded by Prince Bernhard and staffed by former SAS operatives Operation Lock set up headquarters in Johannesburg and extended its reach into neighbouring states Namibia Zambia Botswana Swaziland and Mozambique Its operatives planned to train game rangers to pose as rhino horn traders in order to entrap buyers and to expose the kingpins who were driving the trade It was a controversial approach all the more because it was working within apartheid South Africa in the late 1980s When the existence of the project was finally leaked WWF denied any involvement and John Hanks took the fall In Operation Lock and the War on Rhino Poaching John Hanks finally tells the story of these explosive events from 25 years ago As a leading international authority on conservation he also deals with the scourge of rhino poaching up to the present and gives powerful and controversial criticism of some of the current policies to curb poaching **Annuaire Des Organisations Internationales**, Saving the Last Rhinos Grant Fowlds, Graham Spence, 2020-05-05 The remarkable story of Grant Fowlds who has dedicated his life to saving the imperiled rhinos vividly told with Graham Spence co author of the bestselling *The Elephant Whisperer* What would drive a man to smuggle rhino horn back into Africa at great risk to himself This is just one of the situations Fowlds has put himself in as part of his ongoing fight against poaching in order to prove a link between southern Africa and the illicit lucrative trade in rhino horn in Vietnam Shavings of rhino horn are sold as a snake oil cures but a rhino s horn has no magical medicinal properties whatsoever Yet it is for this that rhinoceroses are being killed at an escalating rate that puts the survival of the species in jeopardy This corrupt illegal war on wildlife has brought an iconic animal to the brink of extinction Growing up on a farm in the eastern Cape of South Africa Grant developed a deep love of nature turning his back on hunting to focus on saving wildlife of all kinds and the environment that sustains both them and us He is a passionate conservationist who puts himself on the front line of protecting rhinos in the wild right now against armed poachers and in the long term through his work with schoolchildren communities and policymakers *Analysis of Rhino Poaching in KwaZulu-Natal, South Africa*, 2011

The Rhino Crash Nick Newman, Karin Mitchell, 2020-07-21

Africa's Threatened Rhinos Keith Somerville, 2025-01-14 Africa's surviving rhinos are under serious threat Poaching for their horns massive

extermination by sports hunters in the nineteenth and first half of the twentieth century and progressive habitat loss have all driven black and white rhino close to the edge This book considers human interactions with these magnificent and enigmatic animals charting hunting for food and hides and then hunting for horn to meet external demand for this much coveted commodity as well as peaceful coexistence over the course of three millennia With only two females alive in a closely protected reserve in Kenya the Northern White Rhino is on the brink of extinction The Southern White Rhino was increasing in numbers but poaching in South Africa Botswana and Namibia has now reduced the population to fewer than 20 000 while Black Rhino are hovering around the 6 000 6 500 mark also with the danger of extirpation everywhere but in parts of eastern and southern Africa Many books have been written on poaching and the decline of the rhino often from a very personal engaged viewpoint This volume takes the reader into important new territory showing how human agency has led to the situation we now face Covering the history of commercial and sporting exploitation of rhino it brings the picture up to date with an overview of contemporary conservation and anti poaching operations This urgent work is a significant contribution to our understanding of wildlife on the African continent

Rhino Poaching Janina Naef, 2016 Rhino horn is very popular in Asia as it is a status symbol and used as medicine That is one reason why the number of these animals is decreasing continuously In 2007 13 rhinos were poached in South Africa while in 2015 the number increased to 1175 rhinos This Matura Paper deals with problems of rhino poaching in South Africa It poses into the question if it is still possible to see rhinos in the future and examines what should be done to save this species from extinction Therefore 5 theses has been stated which consist of political financial protection measures and enlightenment of local and Asian people Thereby an interview has been conducted with a conservationist in addition to research in a volunteering project in South Africa regarding these theses The results prove the problems already stated If there are no changes in one of these problems the rhino doubtfully has a future

The Decline of the Black Rhino in Zimbabwe Tom Milliken, Kristin Nowell, Jorgen B. Thomsen, 1993 An evaluation of Zimbabwe s Black Rhino conservation strategy in the face of continuous poaching and illegal trade in rhino horn and an assessment of future options for rhino conservation

Killing for Profit Julian Rademeyer, 2012-11-08 A terrifying true story of greed corruption depravity and ruthless criminal enterprise On the black markets of Southeast Asia rhino horn is worth more than gold cocaine and heroin This is the chilling story of a more than two year long investigation into a dangerous criminal underworld where merciless syndicates will stop at nothing to attain their prize It is a tale of greed folly and corruption and of an increasingly desperate battle to save the rhino which has survived for more than 50 million years from extinction Killing for Profit is a meticulous devastating and revelatory account of one of the world s most secretive trades It exposes poachers gangsters con men mercenaries killers gunrunners diplomats government officials and other key players behind the slaughter And it follows the bloody trail from the front lines of the rhino wars in South Africa Zimbabwe and Mozambique to the medicine markets of Vietnam and the lair of a wildlife trafficking kingpin on the banks of the Mekong

River in Laos **Memoir Of A Nature Lover Conservation Black Rhinos Before Extinction** Santo Cecena,2021-01-08

Are you a true animal lover This book will surely raise your love for animals especially endangered animals which are on the brink of extinction Catapulted into the grim world of rhino poaching Nick Newman trades life in London for a humble yet adventurous existence in South Africa Tasked to monitor and protect critically endangered black rhinos Nick soon cultivates an understanding of the different individual personalities and their temperamental behaviour by studying the animals in their natural environment Under constant threat of being poached for their horns the rhinos become the pivot around which Nick and the Anti Poaching Unit s lives revolve Nick shares raw moments of heartbreak and hope from the frontline while taking the reader on an honest and humorous trip of his years spent in Africa Dynamic characters who form part of his stories include his sidekick rhino tracking dog Wilma and a black rhino named Elmore who becomes an integral part of his life Towards the end of his time in South Africa mounting pressure catches up with Nick and he soon finds himself in a care facility in Spain where he is forced to go on a journey of self discovery to confront his mental health It is also here where he learns to understand his affinity with the rhinos which he had come to love more than life itself *The Poacher's Moon*

Richard Peirce,2014-09-01 When wildlife conservationist Richard Peirce learnt about the targeting of three private game reserves in the Western Cape in 2011 and the butchery of some of their rhinos he embarked on a crusade to raise public awareness about the horrors of rhino poaching This is the story of Higgins and Lady two rhinos from the farm Fairy Glen that defied the odds by surviving a brutal attack Peirce keeps the reader spellbound as he recounts the series of attacks and their aftermath in chilling detail the unbearable savagery suspect police work shady characters mysterious happenings and death threats Reading like a crime thriller this account of dogged survival compassion and triumph along with desperate strategising to outwit the poaching mafia will have wide appeal Colour images throughout taken as the drama unfolded bring the subject even more vividly to life **African Rhino** Richard Emslie,1999 The black and the white rhinoceros have

become flagship species for international conservation They are significant not only for the continuation of a major evolutionary heritage but also as symbols for the protection of African savannahs The battle for the survival of these species has been marked by some notable successes and sadly many failures and the situation is still critical The international horn trade ban and the domestic bans imposed in most traditional user states have driven the trade further underground in some cases inflating prices and making illegal dealing even more lucrative This Plan is aimed at donors government and non government organizations and all those involved in rhino conservation It outlines the actions and strategies needed to catalyse support for these majestic animals and help secure their future in sub Saharan Africa The overall conclusion is that given the political will stability and adequate field expenditure rhinos can be conserved in the wild
