Research on Emotion and Learning: Contributions from Latin America Camilo Hurtado-Parrado, Carlos Gantiva, Leonardo A. Ortega, Alexander Gómez-A, Lucas Cuenya, Javier Leonardo Rico, 2020-05-11 Latin America has increased its share of world scientific publications by nearly twofold during the last two decades approximately from 2 to 4% Despite this positive trend the scholarly impact of scientific research produced in the region measured in terms of citation rate remains low Two interrelated factors that contribute to this situation is that most research groups tend to work in isolation or in local sporadic collaboration and results are often published in journals that are not indexed in major citation databases e g SCOPUS or Web of Science Ultimately part of Latin American high quality research seems to remain hidden from the rest of the world Over the last decades an important number of Latin American scientists have developed fruitful research agendas on questions on learning and emotion focusing on basic and or translational research with humans and other animal models and implementing diverse methodologies Notwithstanding the important contributions of these research programs Latin American research on emotion and learning has followed the overall trend of other research fields throughout the region namely remaining partially hidden from the large scientific community of the world This Research Topic aimed to engage researchers from Latin America to share their empirical and conceptual work on learning and emotion Ultimately this effort was expected to strengthen and integrate our regional community of experts enhance global networking and establish new challenges and developments for future investigation

The Nature of Business Transformation Richard Kelly, 2022-03-17 This book is a practical guide for business professionals to develop and improve business intelligence and collective decision making within their organisation It proposes a progressive reconfiguration of the traditional business operating system using a nature inspired framework called swarm facilitation that enables and facilitates collective decision making Organisations have followed the same rigid formula of problem solving and decision making for over 100 years It is dominated by centralised governance and pyramid decision making Such an approach is no longer fit for purpose in an environment of employee disengagement artificial intelligence AI superintelligence and Covid 19 fallout By the end of this book readers will be able to solve organisational problems and challenges collectively using swarm intelligence upgrade and future proof business operating systems to reflect a more collective decision making approach fit for the new connected economy and Industry 4 0 embrace mindset quotients that support people working in a more networked self organising and collective environment The book is important reading for leaders and managers who are focused on building organisational capital and engagement and gaining value from the emerging technology by evolving their business operating system into a digital ecosystem as part of an ongoing digital transformation strategy It will also appeal to experts working in the field of organisational change and development both within the organisation and as consultants

Green Economic Structures in Modern Business and Society

Jean-Vasile, Andrei, Andreea, Ion Raluca, Adrian, Turek Rahoveanu, 2015-03-31 Environmental and sustainable development concerns permeate numerous aspects of society including economic activity Many countries now run their economies based on such sustainable economic structures to improve production models and overall living conditions Green Economic Structures in Modern Business and Society discusses the implementation of environmentally friendly models in contemporary economies as well as the development and evolution of such strategies in recent years Focusing on theoretical frameworks empirical research findings and key methodologies this book is a pivotal reference source for academicians advanced level students and professionals within the growing field of green economics *The long and short of mental time travel--self-projection over time-scales large and small* James M. Broadway, Claire M. Zedelius, Jonathan W. Schooler, Simon Grondin, 2015-07-02 Researchers working in many fields of psychology and neuroscience are interested in the temporal structure of experience as well as the experience of time at scales of a few milliseconds up to a few seconds as well as days months years and beyond This Research Topic supposes that broadly speaking the field of time psychology can be organized by distinguishing between perceptual and conceptual time scales Dealing with conceptual time mental time travel also called mental simulation self projection episodic semantic memory propection foresight allows humans and perhaps other animals to imagine and plan events and experiences in their personal futures based in large part on memories of their personal pasts as well as general knowledge Moreover contents of human language and thought are fundamentally organized by a temporal dimension enmeshed with it so thoroughly that it is usually expressible only through spatial metaphors But what might such notions have to do with experienced durations of events lasting milliseconds up to a few seconds during the so called present moment of perception action cycle time This Research Topic is organized around the general premise that by considering how mental time travel might scale down to time perception and vice versa no less progress and integrative synthesis within and across scientific domains might be facilitated Bipolar configurations of future and past orientations of the self may be repeated in parallel across conceptual and perceptual time scales subsumed by a general Janus like feedforward feedback system for goal pursuit As an example it is notable that the duality of propection and semantic episodic memory operating at conceptual time scales has an analogue in perception action cycle time namely the interplay of anticipatory attention and working memory Authors from all areas of psychology and neuroscience are encouraged to submit articles of any format accepted by the journal Original Research Methods Hypothesis Theory Reviews etc which might speak to questions about time and temporal phenomena at long and or short time scales **Understanding the Culture** Jeff Myers, 2017-03-01

Addressing issues such as gender identity abortion technology and poverty Dr Myers challenges readers to ask How can an authentic Christian worldview provide a compassionate effective witness in culture today Dr Myers first shows readers what they can learn from Christian history and why today s issues might not be as new as they seem Then he takes them through the significant topics that affect them every day offering biblical ideas for conversing with others in an increasingly hostile

culture This capstone book to a groundbreaking worldview trilogy equips readers to apply a bold Christian witness to their relationships with loved ones neighbors and colleagues *Ebook: Adolescence* Steinberg,2016-04-16 Ebook Adolescence
